A. Walkom, Legislative Coordinator J. Grossi, Legislative Coordinator

The meeting was called to order at 1:00 PM.

Mayor Taylor in the Chair.

Council recessed at 2:58 PM and reconvened at 3:07 PM.

#### 1. Public Notice

Mayor Taylor acknowledged that the Town of Newmarket is located on the traditional territories of the Wendat, Haudeno-saunee, and the Anishinaabe peoples and the treaty land of the Williams Treaties First Nations and other Indigenous peoples whose presence here continues to this day. He thanked them for sharing this land with us. Mayor Taylor also acknowledged the Chippewas of Georgina Island First Nation as our close neighbours and friends, and that we work to ensure a cooperative and respectful relationship.

Mayor Taylor advised that the Municipal Offices were closed to the public and that this meeting was streamed live at Newmarket.ca/meetings. Residents who would like to provide comment on an item on this agenda were encouraged to provide their feedback in writing through email to Legislative Services at clerks@newmarket.ca or by joining the meeting electronically through video or telephone. He advised residents that their comments would form part of the public record.

The Deputy Clerk advised of the following correction to the agenda:

 Sub-item 9.4.5, Recommendation 6b should read "That Site Plan Review Committee meetings be held in the morning on the same day as Committee of the Whole meetings and commence at 9:30 AM"

Moved by: Councillor Broome Seconded by: Councillor Bisanz

1. That the additions and corrections to the agenda be approved.

**Carried** 

#### 3. Conflict of Interest Declarations

- Deputy Mayor & Regional Councillor Vegh declared a conflict regarding Item 4.1: 600 Stonehaven Avenue - Official Plan Amendment and Zoning By-law Amendment. He advised that the house in which he resides backs onto the property at 600 Stonehaven Avenue.
- Councillor Morrison declared a conflict regarding Item 4.2: 66 Roxborough Road Official Plan Amendment and Zoning By-law Amendment. He advised that his wife's parents reside on Roxborough Road.
- Councillor Twinney declared a conflict regarding sub-item 9.4.7: Site Specific Exemption to Interim Control By-law 2019-04 for 181 Beechwood Crescent and the corresponding By-law 2020-55. She advised that she had hired the same design firm from the application for her work on her own home.

#### 4. Public Hearing Matter(s)

The Deputy Clerk welcomed the public to the Virtual Public Planning and Council meeting. She advised that the Planning Act requires the Town to hold at least one public meeting on any proposed Zoning By-law Amendment, Official Plan Amendment or Draft Plan of Subdivision or Condominium.

The Deputy Clerk advised that the purpose of the public meeting is to hear from anyone who has an interest in either of the following applications:

- 600 Stonehaven Avenue Official Plan Amendment and Zoning By-law Amendment. The application proposes to amend the Official Plan and rezone the subject lands to permit 60 single-detached dwelling units and 142 townhouse units.
- 66 Roxborough Road Official Plan Amendment and Zoning By-law Amendment. The application proposes to amend the Official Plan and rezone the subject lands to permit nine three- storey townhouse units.

She further advised that Council would not make a decision regarding the proposed applications at the public meeting, but will refer all written and verbal comments to Planning Staff to consider and return with a report to a future Committee of the Whole or Council meeting.

The Deputy Clerk encouraged anyone who was interested in providing verbal feedback to Council regarding these applications to join the meeting electronically by emailing clerks@newmarket.ca.

The Deputy Clerk advised that if anyone wished to be notified of any subsequent meetings regarding this matter, they may email planning@newmarket.ca.

The Deputy Clerk noted that in accordance with the Planning Act, the Local Planning Appeal Tribunal may dismiss an appeal to the Tribunal, without holding a hearing, if the appellant failed to make either oral submissions at the public meeting or provide written submissions to Council prior to adoption of the application.

The Deputy Clerk thanked residents for their participation and interest in the meeting.

#### 4.1 600 Stonehaven Avenue - Official Plan Amendment and Zoning Bylaw Amendment

Richard Zelinka of Zelinka Priamo Ltd. Land Use Planners provided a presentation regarding the application for an Official Plan Amendment and Zoning By-law Amendment to permit 60 single-detached dwelling units and 142 townhouse units. The presentation included an overview of the current site, the proposed concepts plans and sample elevations, and a draft plan of subdivision.

The Acting Director of Planning and Building Services provided Council with the next steps regarding the application process and advised that Staff would bring a report back to a future Committee of the Whole meeting.

Moved by: Councillor Simon
Seconded by: Councillor Twinney

 That the presentation provided by Richard Zelinka, Zelinka Priamo Ltd. Land Use Planners regarding the 600 Stonehaven Avenue - Official Plan Amendment and Zoning By-law Amendment be received.

Carried

Deputy Mayor & Regional Councillor Vegh took no part in the discussion or vote on the foregoing matter due to a declared conflict.

Moved by: Councillor Simon Seconded by: Councillor Broome

 That sub-items 4.1.1, 4.1.2, 4.1.4, 4.1.6, 4.1.7, and 4.1.8 being remote deputations provided by John Birchall, Kathryn Morton, Billy Tung, Cherylynn Hunt, Conner McRobbie, and Nicole Rosas be received; and, That sub-items 4.1.9, 4.1.10, 4.1.11, 4.1.12, 4.1.13, 4.1.14, 4.1.15, 4.1.16, 4.1.17, 4.1.18, 4.1.19, 4.1.20, 4.1.21, 4.1.22, 4.1.23, 4.1.24, 4.1.25, and 4.1.26 being correspondence provided by Bert Montenegro, Roger Thompson, Kevin Murdoch, Chunxiang Han, Bruce Musgrave, Chantel Twinney, Cheryl Attallah, Daniel Chan, Frank De Luca, Gary & Joan Lapstra, John Oliver, Julie Schatz, George & Dorothy Twigg, Kendra Pape-Green, Peter & Susan Owsiany, Joe Craparotta, Winston Chong, and Emma Hood be received.

Carried

Deputy Mayor & Regional Councillor Vegh took no part in the discussion or vote on the foregoing matter due to a declared conflict.

#### 4.1.1 Remote Deputation - John Birchall

John Birchall provided a remote deputation on behalf of a number of Stonehaven Avenue residents. He outlined the group's concerns with the developments, including potential traffic problems, increased density, loss of trees and the impact on wildlife.

#### 4.1.2 Remote Deputation - Kathryn Morton

Kathryn Morton provided a remote deputation which outlined her concerns with the proposed development including the density of the townhouse block, the need for trees in the development and the access to greenspace behind the development.

#### 4.1.3 Remote Deputation - Steve Minchopoulos

Steve Minchopoulos withdrew his request to provide a remote deputation.

#### 4.1.4 Remote Deputation - Billy Tung

Billy Tung provided a remote deputation which outlined his concerns with the proposed development including the height of the townhouses. He expressed that he felt the open space areas should be under public ownership.

#### 4.1.5 Remote Deputation - Ian Dove

lan Dove was not in attendance to provide a remote deputation.

#### 4.1.6 Remote Deputation - Cherylynn Hunt

Cherylynn Hunt provided a remote deputation which outlined her concerns with the proposed development including the effect on greenspace and the increased density in the neighbourhood.

#### 4.1.7 Remote Deputation - Conner McRobbie

Conner McRobbie provided a remote deputation which outlined his concerns with the proposed development specifically related to the impact on wildlife and the natural area surrounding the site.

#### 4.1.8 Remote Deputation - Nicole Rosas

Nicole Rosas provided a remote deputation which outlined her concerns with the proposed development including the potential effect on the natural area adjacent to the site and the increased density in the neighbourhood.

- 4.1.9 Correspondence Bert Montenegro
- 4.1.10 Correspondence Roger Thompson
- 4.1.11 Correspondence Kevin Murdoch
- 4.1.12 Correspondence Chunxiang Han
- 4.1.13 Correspondence Bruce Musgrave
- 4.1.14 Correspondence Chantel Twinney
- 4.1.15 Correspondence Cheryl Attallah
- 4.1.16 Correspondence Daniel Chan
- 4.1.17 Correspondence Frank De Luca
- 4.1.18 Correspondence Gary & Joan Lapstra
- 4.1.19 Correspondence John Oliver
- 4.1.20 Correspondence Julie Schatz
- 4.1.21 Correspondence George and Dorothy Twigg
- 4.1.22 Correspondence Kendra Pape-Green
- 4.1.23 Correspondence Peter & Susan Owsiany
- 4.1.24 Correspondence Joe Craparotta
- 4.1.25 Correspondence Winston Chong

#### 4.1.26 Correspondence - Emma Hood

#### 4.2 66 Roxborough Road - Official Plan Amendment and Zoning By-law Amendment

Mark McConville of Humphries Planning Group Inc. provided a presentation regarding the application for an Official Plan Amendment and Zoning By-law Amendment to permit two townhouse blocks with nine units. The presentation included the development proposal, proposed landscape plan and renderings, and an overview of the proposed zoning by-law and official plan amendments.

The Acting Director of Planning and Building Services provided Council with the next steps regarding the application process and advised that Staff would bring a report back to a future Committee of the Whole meeting.

Moved by: Councillor Woodhouse Seconded by: Councillor Twinney

- That the presentation provided by Mark McConville, Associate Planner, Humphries Planning Group Inc. regarding the 66 Roxborough Road - Official Plan Amendment and Zoning By-law Amendment be received; and,
- That sub-items 4.2.1, 4.2.2, 4.2.3, 4.2.4, 4.2.5, 4.2.6, 4.2.7, 4.2.8, 4.2.9, 4.2.10, 4.2.11, 4.2.12, and 4.2.13 being correspondence provided by Helen Anne Young, Jen Schrag, Veronique Grandioux, Evelyn Thompson, Nancy & Alex Doak, Laura & James Thomas, Angela Kyle & Kris Nielsen, Bill Waters, David & Evelyn Jozefkowicz, Don Wright, Heidi Breen, Tedford Family, and Catherine MacDonald be received.

Carried

Councillor Morrison took no part in the discussion or vote on the foregoing matter due to a declared conflict.

- 4.2.1 Correspondence Helen Anne Young
- 4.2.2 Correspondence Jen Schrag
- 4.2.3 Correspondence Veronique Grandioux
- 4.2.4 Correspondence Evelyn Thompson

- 4.2.5 Correspondence Nancy & Alex Doak
- 4.2.6 Correspondence Laura & James Thomas
- 4.2.7 Correspondence Angela Kyle & Kris Nielsen
- 4.2.8 Correspondence Bill Waters
- 4.2.9 Correspondence David and Evelyn Jozefkowicz
- 4.2.10 Correspondence Don Wright
- 4.2.11 Correspondence Heidi Breen
- 4.2.12 Correspondence Tedford Family
- 4.2.13 Correspondence Catherine MacDonald
- 4.2.14 Remote Deputation Lynnette Harris

Lynnette Harris provided a deputation which outlined her concerns with the proposed development including the possibility it could lead to further development of the neighbourhood and whether the proposed townhouses would be compatible with the surrounding area.

Moved by: Councillor Woodhouse

Seconded by: Councillor Kwapis

1. That the remote deputation provided by Lynnette Harris be received.

Carried

Councillor Morrison took no part in the discussion or vote on the foregoing matter due to a declared conflict.

5. Presentations & Recognitions

#### Memorandum

### **Established Neighbourhood Compatibility Study**

November 2, 2020

Following the Committee of the Whole Meeting October 26, 2020, staff and the consulting team are currently reviewing the additional information and direction provided by Committee related to the final recommendations of the Established Neighbourhoods Compatibility Study and associated Official Plan and Zoning By-law Amendments.

Given the level of analysis required to fully review and make any required changes to these documents, staff intends to report back to Council at the December 14<sup>th</sup>, 2020 Council meeting on this matter.

For more information on this Memorandum, please contact the Acting Director of Planning & Building Services at 905-895-5193.

Town of Newmarket 395 Mulock Drive P.O. Box 328, Newmarket, Ontario, L3Y 4X7

#### **Memorandum**

#### **Construction Vibration**

November 2, 2020

During the electronic Committee of the Whole meeting held on October 26, 2020, Town Council requested additional information in relation to construction vibration for non-Planning Act developments.

Since this meeting, Town staff has conducted an internal review pertaining to:

- · the number of complaints received in relation to vibration; and
- the possibility of a permitting framework for large construction projects that do not directly relate to Planning Act developments (e.g. new construction).

#### **Complaints Received for Vibration**

After further review of the total number of complaints received by the Town in relation to construction vibration. Town staff can confirm that a total of 36 formal complaints were filed between 2016-2020, and of these 36:

- 11 complaints directly relate to Town or Regional projects;
- 7 complaints were noise-related and not directly relate to construction vibration:
- 16 complaints directly related to Planning Act developments (e.g. new development projects); and
- 2 complaints were in relation to smaller construction projects, such as driveway repaving or minor residential construction projects.

#### **Permit Process for non-Planning Act Developments**

Town staff has conducted further review to determine what options are available to the Town to implement a permit process for construction vibration. City of Toronto is the only municipality researched that has implemented a Vibration Control application as part of their building permit process. However, no other municipalities researched have implemented a permit process for construction vibration that is unrelated to Planning Act developments (e.g. driveway repaving).

If Council elects to direct staff to implement a permit process, Town staff will need to:

- amend the Town's Noise By-law to introduce regulations pertaining to a permit process;
- amend the Town's Fees and Charges By-law to introduce an application fee;
- develop a permit application form and utilize staff resources for an approval or denial process;
- develop criteria for evaluating which projects meet the standards of the regulations established within the Town's Noise By-law; and,
- develop an overall framework for construction vibration of non-Planning Act developments.

#### Conclusion

The number of formal complaints received by the Town for construction vibration has equated to an average of 9 complaints per year since 2016. Only 2 out of 36 formal complaints within the last 4 years have been directly related to non-Planning Act developments, such as driveway repaving and minor residential construction projects.

For this rationale, Town staff are not recommending the introduction of a permitting process for non-Planning Act matters, largely due to the low number of complaints received versus the administration and staff resources required to establish such a process.

Town staff continue to recommend Option 3 within report # 2020-74, which will establish a formal complaint process for any residents negatively impacted by construction vibration for non-Planning Act matters.

#### **Memorandum**

## Third Quarterly Update to the Outstanding Matters List 2020 - Proposed Reporting Timeframe Revisions

November 2, 2020

Following the Committee of the Whole Meeting on October 26, 2020, Staff have identified items listed in Q4 2020 on the Outstanding Matters List that require revised proposed reporting timeframes. The following items have been updated on the revised Outstanding Matters List (**Revised Attachment 1**) to reflect the changes outlined below including the amendments made by Committee of the Whole on October 26:

#### **Item 4 - Commercial Rooftop Patios**

- That staff be directed to schedule a Statutory Public Meeting for the purpose of outlining specific use permissions related to 'Commercial Rooftop Patios', addressing matters such as:
  - maximum size (percentage of rooftop or gross floor area)
  - associated uses for which a 'Commercial Rooftop Patio' may be permitted
  - design (i.e. site plan) requirements
  - compliance with licensing and noise by-laws

This proposed reporting timeframe has been revised from November 2020 to the December 14, 2020 Council Meeting to allow Staff to prepare material for the Public Meeting.

#### Item 7 - Hollingsworth Arena and Future Ice Allocation Considerations

- 3. That the Town of Newmarket operate with six ice pads and report back annually on the status of ice allocations, and ability to accommodate users; and
- 6. That within six months staff bring back a report on any plans for public amenity use at this location;

This timeframe has been changed from Q4 2020 to Q3 2021. The Covid-19 Pandemic has had a significant impact in how user groups were able to use ice this season. As such, any data collected from this season will be ineffective in determining long term needs of users and allocation processes and strategies.

#### Item 8 - Residential Parking

- (1) 1. That Development and Infrastructure Services Engineering Services and Planning and Building Services - Report 2017-45 dated November 6th, 2017 regarding Residential Parking Review be received and the following recommendations be adopted:
  - c. That, subject to budget approval, staff be directed to undertake a review of the Parking By-law and report back to Committee of the Whole with recommendations on improvements to parking matters discussed in this report.
- (2) 5. That the Temporary Parking Exemption Program be implemented as a pilot project and reviewed as part of the overall residential parking review scheduled for Q1/Q2, 2019

This timeframe has been revised from Q4 2020 to Q1 2021 due to additional projects on the department workplans and balancing Staff resources. Staff will be available to provide an update to Committee of the Whole in Q1 2021.

#### Item 10 - Protection of Trees on Private Property

4. That following the internal and public consultation, issues identified in this report, together with comments from the public, and Committee, be addressed by staff in a comprehensive report to the Committee of the Whole with a draft by-law

This timeframe has been updated to reflect Q1 2021 as Staff are continuously working on the draft by-law, and it was re-prioritized earlier in the year due to Staff resource constraints and the COVID-19 pandemic.

For more information about individual projects contained in **Revised Attachment 1**, please contact the responsible Department Director or respective Commissioner.

| Item | Subject Matter                                    | Council Direction from Outstanding Items List  Or                                                                                                                                                                                                                                                                                                                                                      | Previous<br>Reporting<br>Timeframe                                            | New Proposed<br>Reporting<br>Timeframe | Additional Comments                                                                                                                                                                                                                                                                                                    |

| 7.   | Hollingsworth Arena and Future Ice Allocation Considerations | Meeting Date: Committee of the Whole – April 8, 2019  Recommendations:  3. That the Town of Newmarket operate with six ice pads and report back annually on the status of ice allocations, and ability to accommodate users; and  6. That within six months staff bring back a report on any plans for public amenity use at this location;  Responsible Department:  • Recreation and Culture Services | Q4 2020<br>Q1 & Q3 2020            | Q3 2021<br>Q4 2020                     | Staff will provide two information reports on this item 1) regarding the public amenity use of this facility; and 2) regarding the status of ice allocations after the needs of the organizations for the 2020-2021 season have been identified.  The information reports were delayed due to operational disruptions caused by the Pandemic.  Staff will be prepared to present a Staff report in Q3 2021. The Covid-19 Pandemic has had a significant impact in how user groups were able to use ice this season. As such, any data collected from this season will be ineffective in determining long term needs of users and allocation processes and strategies. |

| 8.   | Residential Parking | Meeting Date:  (1) Committee of the Whole - November 6, 2017  (2) Committee of the Whole - April 9, 2018 (Temporary Parking Exemption Report)  Recommendations:  (1) 1. That Development and Infrastructure Services Engineering Services and Planning and Building Services - Report 2017-45 dated November 6th, 2017 regarding Residential Parking Review be received and the following recommendations be adopted:  c. That, subject to budget approval, staff be directed to undertake a review of the Parking By-law and report back to Committee of the Whole with recommendations on improvements to parking matters discussed in this report.  (2) 5. That the Temporary Parking Exemption Program be implemented as a pilot project and reviewed as part of the overall residential parking review scheduled for Q1/Q2, 2019  Responsible Department:  • Planning and Building Services  • Legislative Services | Q4 2020<br>Q3 2020                 | Q1 2021<br>Q4 2020                     | Additional time needed to scope issues and confirm enforcement matters with By-laws.  Staff have revised the timeframe to Q1 2021 due to additional projects on the department workplans and balancing Staff resources. Staff will be available to provide an update to Committee of the Whole in Q1 2021. |

|                    |                                                       | Recommendation:  6. That the Town continue to apply Category 1 traffic calming measures to educate motorists to comply with the speed limits and that Staff explore options for Category 2 traffic calming measures; and,  7. That Staff provide Council with data regarding All-Way Stop warrants related to Bob Gapp Drive and Atkins Drive, including modelling the anticipated near-term growth; and,  Responsible Departments:  • Engineering Services |                              |                                        | The timing of this report will depend on when traffic patterns resume back to normal after the Pandemic (i.e., if school returns to normal in September 2020). Traffic measurements will need to be a true representation of the traffic patterns to correct the field situation.  As schools are returning in the Fall, Staff will conduct appropriate studies in Q3 & Q4 of 2020, as the weather allows. A Staff Report will be issued in Q1 2021. |

| 22.21.             | Heritage Designations - York<br>Region Administrative Building<br>and Newmarket Canal System | Meeting Date: Committee of the Whole - April 30, 2018  Recommendations:  2. The Strategic Leadership Team/Operational Leadership Team recommend that the following be referred to staff for review and report:  a. That the Heritage Newmarket Advisory Committee propose to the Region of York that the Administration Centre building be designated, due to its noted architect; and,  b. That the Heritage Newmarket Advisory Committee recommend the Town of Newmarket designate the Newmarket Canal system.  Responsible Department:  • Planning and Building Services | Q3 2020<br>Q1 2020           | Q1 2021                                | Additional time was needed to retain Cultural Heritage Consultant via Procurement process.  Consultant retained and Designation Reports are now being prepared.  This item must first go to Heritage Newmarket, so it is tied to timing of that Committee resuming their meeting schedule. Staff are prepared to bring a report to a Heritage Newmarket Committee Meeting in September 2020.  Staff distributed an information report on September 10, 2020 which provided an explanation as to amending the proposed reporting timeframe. |

| <del>26.</del> 25. | Parking Enforcement Initiative -<br>Pay It Forward Program | Meeting Date: Committee of the Whole - November 4, 2019  Recommendation: 3. That Staff report back to Council within 18 months  Responsible Department:  • Legislative Services                                                                                                                                                                               | Q2 2020                      | Q3 2021                                  | Council previously request that staff require donations to the Newmarket CARE program, however online donations cannot be accepted. Given that resources will be committed to recovery from the Pandemic this initiative is not deemed a priority item in 2020 and will be presented to Council as an Information Report in 2021.                                    |
| <del>27.</del> 26. | Short Term Rentals & Municipal Accommodation Tax           | Meeting Date: Committee of the Whole – February 3, 2020  Recommendations: 3. That Council direct Staff to proceed with Option 3 as described in the report.  Option 3 would require the adoption of a Licensing By-law, presented to Council in April or May 2020 and amendments to the Zoning By-law, presented to Council by August 2020.                   | Q3/Q4 2020                   | Q2 and Q3 2021 – see additional comments | Licensing framework could be ready for a Workshop with Council in June 2020, with a program with zoning framework in Q3/Q4. Current considerations being given to the Pandemic and restrictions on short term rentals.  Staff distributed an information report on September 10, 2020 which provided an explanation as to amending the proposed reporting timeframe. |
|                    |                                                            | Meeting Date: Special Committee of the Whole – Electronic – June 15, 2020  Recommendations: 4. That Council direct staff to bring forward a report regarding a Municipal Accommodation Tax (MAT) on all short term rental properties in Q3/Q4 2021.  Responsible Departments:  • Legislative Services  • Planning and Building Services  • Financial Services |                              | Q3/Q4 2021                               | The Municipal Accommodation Tax will need to be included with this matter, and staff will need to outline a plan to approach this item, starting with stakeholder consultations                                                                                                                                                                                      |

| Item               | Subject Matter                                   | Council Direction from Outstanding Items List  Or  Description from Individual Department Work Plans                                                                                                                                                                                                   | Previous Reporting<br>Timeframe | New Proposed<br>Reporting Timeframe        | Additional Comments                                                                     |  |  |  |  |  |

For consideration by Council on November 2, 2020. The meeting was called to order at 1:01 PM. Mayor Taylor in the Chair.

#### 1. Notice

Mayor Taylor advised that the Municipal Offices were closed to the public and that this meeting was streamed live at <a href="Newmarket.ca/meetings">Newmarket.ca/meetings</a>. Residents who would like to provide comment on an item on this agenda were encouraged to provide their feedback in writing through email to Legislative Services at <a href="Clerks@newmarket.ca">clerks@newmarket.ca</a> or by joining the meeting electronically through video or telephone. He advised residents that their comments would form part of the public record.

### 2. Additions & Corrections to the Agenda

None.

#### 3. Conflict of Interest Declarations

None.

#### 4. Presentations

#### 4.1 State of the Infrastructure - Report Cards

The Manager of Asset Management provided an introduction to the presentation and outlined the history of the infrastructure report card, and the asset valuation for Town of Newmarket assets. The Asset Management Specialist provided an overview of the roads network, bridge infrastructure and stormwater system report cards, and provided Council with capital spending and reinvestment ratios for each asset. The Asset Management Specialist also reviewed the water distribution, and wastewater collection report cards, and provided replacement cost information for each asset. The presentation concluded with an overview of data confidence and advised that the report cards were published on the Town's website.

Members of Council queried Staff regarding watermain assets, infrastructure and asset replacement processes, and data confidence gradings.

An alternate motion was presented and is noted below in bold.

Moved by: Councillor Bisanz

Seconded by: Councillor Woodhouse

1. That the presentation provided by the Corporate Asset Management Office regarding the State of the Infrastructure - Report Cards be received; and,

2. That the report entitled State of the Infrastructure Report and Report Cards dated October 19, 2020 be received.

**Carried** 

#### 4.2 2021 Draft Capital and Rate-Supported Budgets

The Chief Administrative Officer provided an introduction to the 2021 Draft Capital and Rate Supported Budget presentation and the Director of Financial Services/Treasurer.

The Director of Financial Services/Treasurer outlined the COVID-19 pandemic's indirect impact on both the 2020 and 2021 budgets, and provided an overview of all 2021 budgets for Council's review. He further explained the budget impact on an average residential property, the capital program by both department and category, and the rate-supported operating budget including the water and wastewater consolidated budget. The Director of Financial Services/Treasurer outlined the options for the stormwater 10-year financial plan.

Members of Council queried Staff regarding specific projects in the decision packages and deferred items, the unallocated portion of budget funds, and the three stormwater 10-year financial plan options.

Moved by: Councillor Broome

Seconded by: Councillor Morrison

 That the presentation provided by the Director of Financial Services/Treasurer regarding the 2021 Draft Capital and Rate-Supported Budgets be received.

#### 5. Deputations

None.

#### 6. Items

# 6.1 State of the Infrastructure Report and Report Cards

This item was dealt with under item 4.1. See item 4.1 for motion.

### 6.2 2021 Preliminary Draft Capital Budget Report

An alternate motion was presented and it noted below in bold.

Moved by: Councillor Kwapis

Seconded by: Councillor Broome

- 1. That the report entitled 2021 Preliminary Draft Capital Budget dated October 19, 2020 be received; and,
- 2. That the proposed Capital Budget be incorporated into the Draft Budgets to be presented to Committee of the Whole on December 7, 2020; and,
- 3. That the Treasurer be authorized and directed to do all things necessary to give effect to these recommendations.

Carried

#### 6.3 2021 Preliminary Draft Rate-Supported Operating Budgets Report

Moved by: Councillor Morrison

Seconded by: Councillor Simon

- 1. That the report entitled 2021 Preliminary Draft Rate-Supported Operating Budgets dated October 19, 2020 be received; and,
- 2. That subject to any additional direction from Committee, the proposed Water and Wastewater budgets be incorporated into the Draft Budgets

to be presented to Committee of the Whole on December 7, 2020; and,

3. That the Treasurer be authorized and directed to do all things necessary to give effect to these recommendations.

Carried

#### 6.4 10-Year Stormwater Financial Plan

An alternate motion was presented and is noted below in bold.

Moved by: Councillor Kwapis

Seconded by: Councillor Morrison

- 1. That the report entitled Stormwater 10-Year Financial Plan Options dated October 19, 2020 be received; and,
- 2. That Option 2 as outlined in this report be incorporated into the Draft Budgets to be presented to Committee of the Whole on December 7, 2020; and,
- 3. That Staff be authorized and directed to do all things necessary to give effect to this resolution.

Carried

#### 7. Closed Session

Mayor Taylor advised there was no requirement for a Closed Session.

# 8. Adjournment

Moved by: Councillor Broome

Seconded by: Councillor Woodhouse

1. That the meeting be adjourned at 3:33 PM.

# State of the Infrastructure – Report Cards

Presenter: Corporate Asset Management Office;

Lead By: Lisa Ellis

Date: October 19, 2020

# History of the Infrastructure Report Card

 The Canadian Infrastructure Report Card is a collective effort by:

 The Town of Newmarket has aligned itself with this Nationally recognized program and best practice by developing our First Infrastructure Report Card.

# Why An Infrastructure Report Card?

 Communicate the status of our assets to create a baseline for investment decision making.

What does the Town own?

What is the cost to replace?

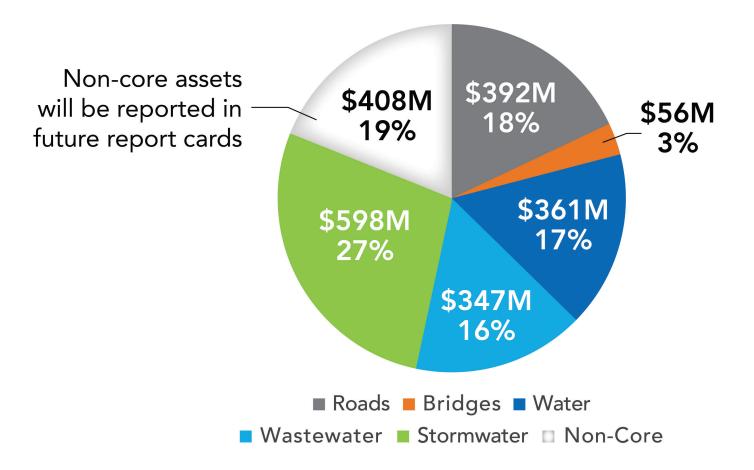

What condition are the assets in?

# The Total Replacement Cost of Town Assets is Estimated at \$2.16B

# Roads Network Infrastructure Report Card

#### INFRASTRUCTURE PURPOSE

The Town's local and collector roads transport people and goods quickly and safely to where they need to go.

Roads are maintained to ensure safe and smooth transportation.

# REPLACEMENT COST:

\$392 Million

# AVERAGE NETWORK CONDITION

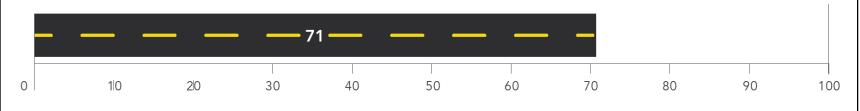

GOOD

#### **INVENTORY**

Local Roads: 182 centerline km Collector Roads: 67 centerline km

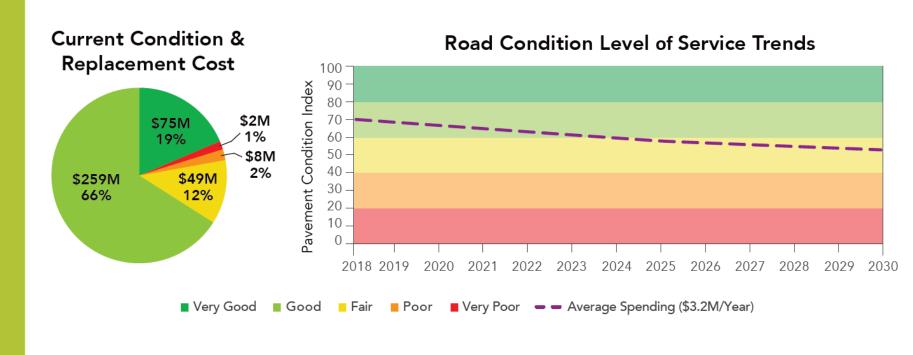

# Average Road Pavement Condition (out of 100)

# Roads Network Infrastructure Report Card

2021 Draft Capital & Rate-supported Budgets

Presenter: Mike Mayes

Date: October 19, 2020

# Newmarket

## Agenda

- 1. Updates
- 2. COVID-19
- 3. Overview
- 4. Capital Budgets
- 5. Rate-supported Operating Budgets
- 6. Options for Stormwater
- 7. Next Steps

## **Updates**

What has changed since October 5

## Some minor changes

### Capital

- Omission on the project listing
  - CYFS 2, \$750,000 replacement fire truck

### Rate-supported

- Financial Plan updates deferred
  - To address Fiscal Strategy recommendations
  - 3 Stormwater options

## Budgeting in a COVID-19 world

Influence on the 2021 budget

## Pandemic's indirect impact

- Restricted delivery of the 2020 capital program requiring provision in 2021
  - \$6.7 million deferred from 2020
  - Adjustments to unallocated budget
- Financial Relief Program
  - Reversal of Town and Region rates not reflected in the 2020 budget
  - New revenue source in 2021 interest on overdue water accounts

## Overview

2021 budgets at a glance

# There are many budgets:

| Operating Budgets:                                               |                  |
|------------------------------------------------------------------|------------------|
| Tax-supported – Town, Fire,<br>Library, Mulock Farm, BIA         | \$ 91.0 million  |
| Rate-supported – water, wastewater, stormwater, building permits | 46.4 million     |
|                                                                  | \$ 137.4 million |
| Capital budget (revised)                                         | \$ 37.9 million  |
| Total                                                            | \$ 175.3 million |

|                         | % increase | \$ increase |
|-------------------------|------------|-------------|
| Property tax            | 2.99 %     | \$ 64.79    |
| Water / wastewater      | 4.00 %     | \$ 49.44    |
| Stormwater (status quo) | 10.00 %    | \$ 4.21     |
| Total                   |            | \$ 118.44   |

Based on an average single detached home with an assessment value of \$700,000

## Capital Budget

## **Options for Stormwater**

Stormwater 10-Year Financial Plan
Options
Staff Report to Council

# Assets Included In This Financial Plan

- 284 kilometers of stormwater sewers
- 10,851 catch basins & maintenance holes
- 37 oil grit separators
- 65 wet ponds, dry ponds, and LID sites

### Estimated Total Replacement Cost (Today's Dollars):

\$ 598 Million

# Background: Current SW Practices & Level of Service

 Inspections, cleaning, repairs, maintenance and storm response by Public Works

- Sewers may be replaced by Engineering during road projects.
- Ponds & LID features implemented, monitored, major maintenance by Engineering

## **Cost Drivers**

### Environmental Protection:

 Existing assets & proposed projects are tied to regulatory compliance

### Improving Asset Management:

 New practices identified that would improve asset lifecycles and reduce risk.

### Leadership & Community Building:

- Implementation of Council Priority for LID
- Assumption of 14 existing ponds from developers that must now be maintained.

## **Financial Considerations**

|                         | Option 1<br>Status Quo   | Option 2<br>Incremental  | Option 3<br>Extraordinary |

# State of the Infrastructure Report and Report Cards Staff Report to Council

Report Number: 2020-76

Department(s): Corporate Asset Management

Author(s): Lisa Ellis, Manager Asset Management

Meeting Date: October 19, 2020

#### Recommendations

1. That the report entitled State of the Infrastructure Report and Report Cards dated October 19, 2020 be received.

#### **Purpose**

The purpose of this report is to provide an overview of the State of the Infrastructure Report Cards that have been prepared by the Corporate Asset Management Office in collaboration with Engineering, Public Works Services, Financial Services and Communications.

#### **Background**

In 2012, a collective group of organizations came together to create the first ever National State of the Infrastructure Report Card. The collective included: the Association of Consulting Engineering Companies Canada (ACEC), the Canadian Construction Association (CCA), the Canadian Parks and Recreation Association (CPRA), the Canadian Public Works Association (CPWA), the Canadian Society for Civil Engineering (CSCE), the Canadian Urban Transit Association (CUTA), the Canadian Network of Asset Managers (CNAM), and the Federation of Canadian Municipalities (FCM).

The report card provided an assessment of the condition of four primary asset categories of municipal infrastructure: drinking-water systems, wastewater and stormwater networks, and municipal roads raising awareness of how each service area was performing. This was the first assessment of its kind in Canada, and featured the most comprehensive analysis and reporting on Canada's municipal infrastructure. The report highlighted how critical it is to continue building and renewing the infrastructure that is key to our continued economic vitality as a country. This tool has since been adopted by many municipalities and is being used as the basis to further discussions and decisions surrounding asset management and investment.

The Town of Newmarket continues to share its data with this project. With the Town's continued focus on financial sustainability, now is the perfect opportunity to share our own State of the Infrastructure Report Card.

As owners of more than \$2 billion of infrastructure, the Town of Newmarket is focused on the cost and quality of the services the Town's infrastructure provides. The sustainability of Town infrastructure depends on effective management, maintaining a state of good repair, and ensuring the optimal use of limited funds. Asset management delivers the framework for achieving these outcomes and will provide mechanisms for balancing performance, cost, and risk as capabilities develop.

#### **Discussion**

This is the Town's first-ever Infrastructure Report Card and includes all "core" assets (as defined by the Province) – roads, bridges, water mains, wastewater systems, and stormwater facilities. It provides the baseline for the discussion of infrastructure and is intended as a prologue to the updated Asset Management Plan that will be delivered in accordance with regulatory requirements before July 1, 2021.

Projects like the Infrastructure Report Card demonstrate the value of asset management and the Town's commitment to financial sustainability.

Bringing together the analysis of each service area, the results of the infrastructure report cards answer three pivotal questions:

#### 1. What Do We Own?

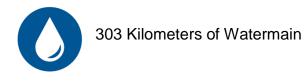

The Town owns and is responsible for maintaining a large number of assets. The assets captured in this report card include:

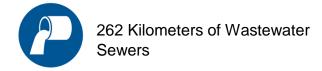

249 Kilometers of Roads

68 Bridges and Culverts

284 Kilometers of Storm Sewers and 47 Storm Ponds

#### 2. What Is It Worth?

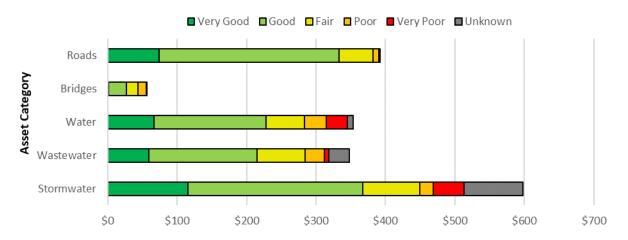

The assets within the scope of this Report Card are estimated to cost \$1.75 Billion (2020 valuation). When non-core assets are considered, the asset valuation increases by \$408 Million to reach an estimated total of \$2.16 Billion. The valuation of \$2.16 Billion represents the 2020 total contracted cost of replacing each asset the Town owns and does not consider staff time, maintenance, growth, climate change, service enhancements, or other cost factors. This valuation demonstrates that the Town has made an important investment in infrastructure, and has a significant obligation to ensure the maximum return on this investment.

#### 3. What Condition Is It In?

Using the method of most Infrastructure Report Cards, assets are assigned condition ratings on a 5-point scale. Ratings are assigned based on age and life expectancy. Age is an industry-accepted benchmark for the high-level analysis of infrastructure portfolios. While it is suitable for financial analysis, staff do not rely on age when making tactical decisions – instead, they use actual field observations with respect to condition. The methodology presented aligns with the Canadian Infrastructure Report Card, which provides benchmarks for how to use age data in the absence of condition observations collected by field professionals. The exceptions to this approach are roads, bridges, and stormwater ponds, which had comprehensive condition information from recent inspections.

The Town's assets are at varying stages of their lifecycle. Assets are rated from Very Good to Very Poor. Having "Fair" to "Poor" rated assets before they are replaced is not necessarily bad. However, failure to maintain a state of good repair is likely to lead to increased reactive maintenance, inefficient replacements, and drops in service levels.

Figure 2: Breakdown of Replacement Cost and Condition by Asset Category

Total Value of Assets Within Each Condition Category

#### **Current Capital Spending**

The Infrastructure Report Card is a snapshot in time showing the financial health of the assets. To add context to the condition ratings, the amount spent on capital reinvestment for these reports is based on the 2015 to 2019 5-year average spend not including staff time.

#### **Reinvestment Ratio**

The reinvestment ratio benchmarks the financial health of the infrastructure by comparing annual budgets to total replacement value. The ratio follows the principles of age and expected service life. As an example, a 2% reinvestment rate would be needed to maintain assets on a 50-year cycle, on average.

The Canadian Infrastructure Report Card recommends the following range for Core Assets. For context, the Town's current performance is also provided:

| Core Asset | Town of Newmarket           | Canada Infrastructure Report Card Recommendations |                    |
|------------|-----------------------------|---------------------------------------------------|--------------------|
| Classes    | Capital Budget Reinvestment | Minimum Reinvestment                              | Upper Reinvestment |
|            | (2015 - 2019 Average)       | Target                                            | Target             |
| Roads      | 0.84%                       | 2.00%                                             | 3.00%              |
| Bridges    | 0.66%                       | 1.00%                                             | 1.50%              |
| Water      | 0.47%                       | 1.00%                                             | 1.30%              |
| Wastewater | 0.18%                       | 1.00%                                             | 1.30%              |
| Stormwater | 0.09%                       | 1.00%                                             | 2.00%              |

#### **Data Confidence Ratings**

As the Town's capabilities advance, resources grow, and data improves, so too will the confidence in data and the ability to forecast or predict the cost. The scale presented below is a simplified measure of confidence based on the type of data that was used in the analysis. The scale shows how layers of analysis and data add to our confidence. As an example, if the Town has condition data (a "B" rating), this does not mean age and historical knowledge are ignored.

The Confidence Level Rating is based on principles of the Ministry's Guide to Municipal Asset Management Plans, Federal Gas Tax Agreement Requirements, ISO 55000, and International Infrastructure Management Manual (IIMM).

#### Conclusion

The intention of the first Report Card is to report on Core-Assets as defined by the Provincial Legislation. This information will form the base of the Asset Management Plans that will be before Council in Q2 2021. Report Cards for non-core assets will be forthcoming in accordance with provincial regulatory timelines in 2023.

At this time the Infrastructure Report Card has not been incorporated into Council's Dashboard on Strategic Priorities. There will be a link from the dashboard under the Financial Sustainability Pillar to the Asset Management/Infrastructure Report card webpage.

#### **Business Plan and Strategic Plan Linkages**

The development of the Town's First Infrastructure Report cards is supportive of Council's Long-Term Financial Sustainability priority. The information contained within this report and accompanying report card will support the development of comprehensive up-to-date Asset Management Plans.

#### Consultation

Engineering Services, Public Works Services, Financial Services and Corporate Communications were all consulted at regular intervals to support the creation of the Town's first State of the Infrastructure Report Card.

#### **Human Resource Considerations**

None.

#### **Budget Impact**

None.

#### **Attachments**

State of Infrastructure Report Card

#### **Approval**

Peter Noehammer, Commissioner of Development & Infrastructure Services

# TOWN OF NEWMARKET INFRASTRUCTURE REPORT CARD

Reporting on the state of our Infrastructure

Date: October 2020

# **Table of Contents**

#### TOWN OF NEWMARKET INFRASTRUCTURE REPORT CARD

- 1. Purpose
- 2. Executive Summary
  - a. What does the Town Own?
  - **b.** What is it Worth?
  - c. What is the Overall Condition?
- 3. Methodology & How to Read the Report Card
- 4. Results
  - a. Roads
  - **b.** Bridges & Culverts
  - c. Water
  - d. Wastewater
  - e. Stormwater

#### **Purpose**

As owners of more than \$2 billion of infrastructure, the Town of Newmarket is continually focused on the cost and quality of the services the Town's infrastructure provides. The sustainability of Town infrastructure depends on effective management, maintaining a state of good repair, and ensuring the optimal use of limited funds. Asset management delivers the framework for achieving these outcomes and will provide mechanisms for balancing performance, cost, and risk as capabilities develop.

The purpose of an Infrastructure Report Card is to communicate performance of the assets and to raise awareness of how each service area is performing. A common tool used by Canadian municipalities, a Report Card forms the basis for further discussions and decisions surrounding asset management and investment.

This is the Town's first-ever Infrastructure Report Card and includes all "core" assets (as defined by the Province) – roads, bridges, watermains, wastewater, and stormwater. It provides the baseline for the discussion of infrastructure and is intended as a prologue to the updated Asset Management Plan that will be delivered in accordance with regulatory requirements before July 1, 2021. The Plan will address the assets in greater detail by analyzing risk, maintenance, growth, and other factors to forecast investment needs and program costs. Projects like the Infrastructure Report Card demonstrate the value of asset management and the Town's commitment to financial sustainability.

The Town's roads are one of five categories of "core" assets as defined by the Province. The other core assets in this report card are our bridges, sewers, watermains, and stormwater assets.

#### **Executive Summary**

Bringing together the analysis of each service area, the results of the infrastructure report cards answer three pivotal questions:

- What do we own?
- What is it worth?
- What condition is it in?

#### What do we own?

The Town owns and is responsible for maintaining a large number of assets. The assets captured in this report card include:

249 Kilometers of Roads

68 Bridges and Culverts

303 Kilometers of Watermain

262 Kilometers of Wastewater Sewers

284 Kilometers of Storm Sewers and 47 Storm Ponds

Assets not covered in this report are non-core assets that will be reported in accordance with provincial regulatory timelines (2023) include 390 kilometers of sidewalks, 259 vehicles, 66 buildings and land improvements, 44 kilometers of trails, 45 parks, and many others.

Example of core assets in Newmarket. From the left, a stormwater sewer discharging at an outfall and into a pond and on the right, a pedestrian bridge located on Tom Taylor Trail.

#### What Is It Worth?

The assets within the scope of this Report Card are estimated to cost \$1.75 Billion (2020 valuation). When non-core assets are considered, the asset valuation increases by \$408 Million to reach an estimated total of \$2.16 Billion.

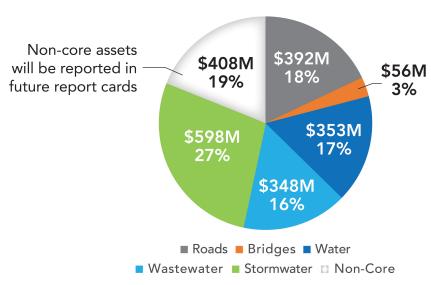

Regular maintenance and staff attention to assets are needed in order to maintain our investments and service levels. The photo above shows the Town's contractor conducting watermain swabbing at a Town fire hydrant and watermain.

The valuation of \$2.16 Billion represent the 2020 total contracted cost of replacing each asset the Town owns and does not consider staff time, maintenance, growth, climate change, service enhancements, or other cost factors. This valuation demonstrates that

the Town has made an important investment in infrastructure, and has a significant obligation to ensure the maximum return on this investment. See **Figure 1**.

Figure 1:

#### What condition is it in?

Example of core assets with condition defects: winter freeze and thaw damage.

The Town's assets are at varying stages of their lifecycle. As assets age, they will usually deteriorate and the need for reinvestment will arise (signified by a reduced condition rating). Assets are rated from Very Good to Very Poor. Having "Fair" to

"Poor" rated assets before they are replaced is not necessarily bad. However, failure to maintain a state of good repair may lead to increased reactive maintenance, inefficient replacements, and drops in service levels.

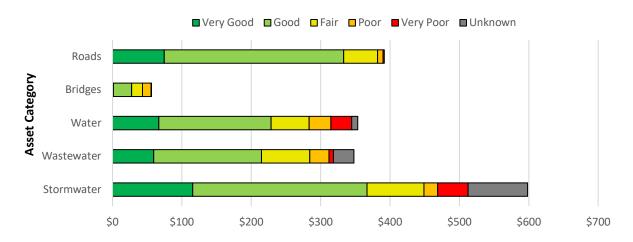

For further information, please see the <u>Methodology section</u> of this report.

Example of core assets with condition defects: drainage damage caused by a broken pipe.

The results of this process are shown in two graphs as a breakdown of the total replacement value, followed by a service area comparison. See **Figure 2** and **Figure 3**.

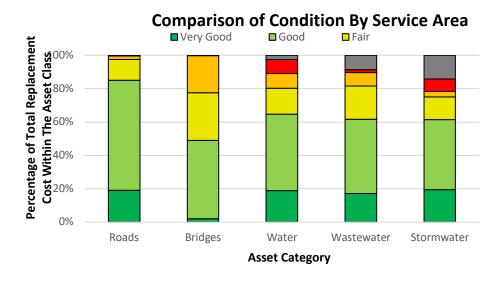

Figure 2: Breakdown of Replacement Cost and Condition by Asset Category

**Total Value of Assets Within Each Condition Category** 

While many of our assets are in Very Good or Good (\$1.2 Billion) condition, there are other assets in Fair to Very Poor condition (\$450 Million).

Figure 3: Normalized Comparison of Asset Condition by Service Area as a Percentage of Total Replacement Value

When service areas are compared to one another, the Town's inventory of bridges is rated in the Fair to Poor category, (as a percentage of their total) followed by Water and Wastewater assets. Approximately 9% of our water assets and 7% of our storm water assets are considered very poor.

#### Methodology and how to read the Report Card

There are three sections to each report card: (1) A high-level summary, (2) a breakdown of details about the condition, and (3) a summary of historical capital investments in the assets.

#### **Life Expectancy**

All assets have a finite life. Different types of infrastructure have different life expectancies. From the time an asset is constructed, it will require a replacement in the future at the end of the expected service life. There are generally accepted industry standards and best practices that predict how long assets should last.

Each asset category shows an overall life expectancy and an average age of the assets within the category. Life expectancy is weighted by the individual assets' replacement cost – individual assets vary in life expectancies and cost different amounts.

This demonstrates on a general basis how much useful life of the asset portfolio has been consumed.

Figure 4: Age and Expected Service Life Methodology Condition Categories.

Using the method of most Infrastructure Report Cards, assets are assigned condition ratings on a 5-point scale. Ratings are assigned based on age and life expectancy (**Figure 5**). Age is an industry-accepted benchmark for the high-level analysis of infrastructure portfolios, using the principles outlined above (Life Expectancy).

Figure 5: Condition Rating Methodology

| Condition Ratings Based on Current Age of the Assets |            |                |            |           |  |  |  |  |  |  |
|------------------------------------------------------|------------|----------------|------------|-----------|--|--|--|--|--|--|
| Very Good Good Fair Poor Very Poor                   |            |                |            |           |  |  |  |  |  |  |
| 100% to 80%                                          | 80% to 60% | 60% to 40%     | 40% to 20% | 20% to 0% |  |  |  |  |  |  |
|                                                      | Percentage | of Remaining U | seful Life |           |  |  |  |  |  |  |

A condition rating system identifies which stage assets are at in their lifecycle. While it is suitable for financial analysis, staff do not rely on age when making tactical decisions – instead, they use actual field observations. The methodology presented aligns with the Canadian Infrastructure Report Card, which provides benchmarks for how to use age data in the absence of condition observations collected by field professionals. The

exceptions to this approach are roads, bridges, and stormwater ponds, which had comprehensive condition information from recent inspections. More detail on the condition ratings are as follows (**Table 1**):

**Table 1: Condition Rating Definitions** 

| Condition<br>Category | Condition Description*                                                                                                                                                                                                                                |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Very<br>Good          | The asset is fit for the future. It is well maintained, in good condition, new or recently rehabilitated.                                                                                                                                             |
| Good                  | The asset is adequate. It is acceptable and generally approaching the mid-stage of its expected service life.                                                                                                                                         |
| Fair                  | The asset requires attention. The asset shows signs of deterioration and some elements exhibit deficiencies.                                                                                                                                          |
| Poor                  | There is an increasing potential for its condition to affect the service it provides. The asset is approaching the end of its service life, the condition is below the standard and a large portion of the system exhibits significant deterioration. |
| Very<br>Poor          | The asset is unfit for sustained service. It is near or beyond its expected service life and shows widespread signs of advanced deterioration. Some assets may be unusable.                                                                           |
| Unknown               | Not enough data exists.                                                                                                                                                                                                                               |
|                       | are sourced from the Canadian Infrastructure Report Card and Statistics                                                                                                                                                                               |

# \*Definitions are sourced from the Canadian Infrastructure Report Card and Statistics Canada, 2019. The Town will be validating these definitions and expanding its condition assessment methodology over time.

#### **Current Capital Spending**

The Infrastructure Report Card is a snapshot in time showing the financial health of the assets. To add context to the condition ratings, the amount spent on capital reinvestment as a 5-year average (2015 to 2019) is provided. The amounts shown are the average yearly dollars that were spent on capital reinvestment from 2015 to 2019, and do not include staff time. This information can be benchmarked through a metric

called the Reinvestment Ratio (explained below).

The Report Cards do not answer the question of what replacing assets as they age will cost. With the baseline information established by the Report Cards, the 2021 Asset Management Plan will analyze and forecast the assets further to show this information, the findings of which will be presented to Council.

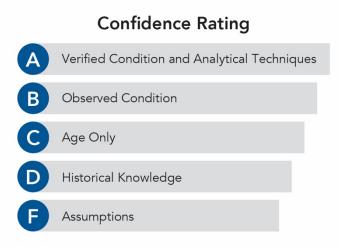

#### **Reinvestment Ratio**

The reinvestment ratio benchmarks the financial health of the infrastructure by comparing annual budgets to total replacement value. The ratio follows the principles of age and expected service life (e.g. a 2% reinvestment rate would be needed to maintain assets on a 50-year cycle, on average). It is recommended by the Canadian Infrastructure Report Card to re-invest approximately a minimum of 1% every year, on average, back into your assets.

#### **Data Confidence Ratings**

Asset management is a continuous improvement process. As the Town's capabilities advance, resources grow, and data improves, so too will the confidence in data and the ability to forecast or predict the cost. The scale presented (**Figure 6**) is a simplified measure of confidence based on the type of data that was used in the analysis. The scale shows how layers of analysis and data add to our confidence. As an example, if the Town has condition data (a "B" rating), this does not mean age and historical knowledge are ignored.

Figure 6: Data Confidence Rating System

#### Results

Please see the appended Infrastructure Report Cards in the next few pages for the Town's roads, bridges, water, wastewater, and stormwater assets.

### Roads Network Infrastructure Report Card

#### **INFRASTRUCTURE PURPOSE**

The Town's local and collector roads transport people and goods quickly and safely to where they need to go.

Roads are maintained to ensure safe and smooth transportation.

REPLACEMENT COST: \$392 Million

AVERAGE NETWORK CONDITION

GOOD

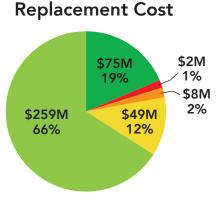

**INVENTORY** 

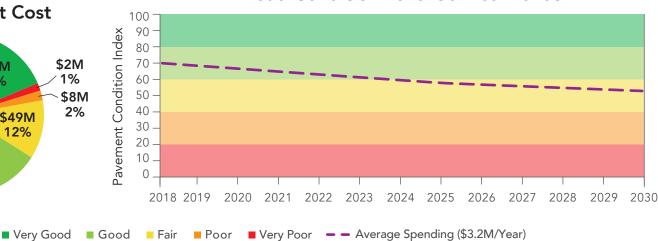

Local Roads: 182 centerline km Collector Roads: 67 centerline km

#### **DETAILS:**

## Current Condition & Replacement Cost

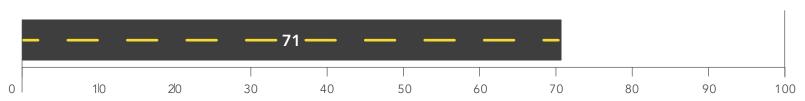

#### **Road Condition Level Service Trends**

The road network average is forecasted using roads software that produces funding scenarios.

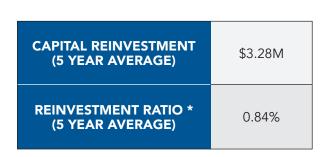

The condition is forecasted from data that was collected in 2018.

#### Average Road Pavement Condition (out of 100)

Road condition is collected by contracted services. Staff are working to convert condition observations into a life expectancy forecast

#### **CURRENT CAPITAL SPENDING**

#### **DATA CONFIDENCE RATING**

#### **Confidence Rating**

Please refer to 'Confidence Rating' in the report for more information.

# Bridge Infrastructure Report Card

#### INFRASTRUCTURE PURPOSE

The Town's bridges provide a safe passage to vehicles, cyclists, and pedestrians. Some also serve as local landmarks in Town. Each structure is inspected every two years as mandated by the Province of Ontario.

#### **REPLACEMENT** COST: \$56 Million

#### **AVERAGE NETWORK CONDITION**

**FAIR** 

#### **INVENTORY**

Vehicle Bridges: 13 Foot Bridges: 36 Major Culverts: 19

#### Life Expectancy

To date, our bridges have consumed on average 70% of its expected lifespan. In spite of this, our bridges received an overall Fair rating based on biannual contracted engineering inspections that assess bridge's condition.

Average Rating: Fair.

#### **DETAILS:**

35 (70%) 15 (30%) Average Expected Life: 50 Years Current Average Age Average Remaining Life **Current Condition & Current Condition Breakdown** Replacement Cost 100% Percentage of Total Replacement 90% 80% Cost Per Category 70% \$16M 28% 60% \$26M 50% 47% 40% \$12M 30% 20% 10% 0%

# Water Distribution Infrastructure Report Card

#### **INFRASTRUCTURE PURPOSE**

The Town provides drinking water distribution to service residents, business and customers with water purchased from York Region. The distribution system is maintained by the Town for high water quality and reliable supply.

REPLACEMENT COST: \$353 Million

### AVERAGE NETWORK CONDITION

GOOD

#### **INVENTORY**

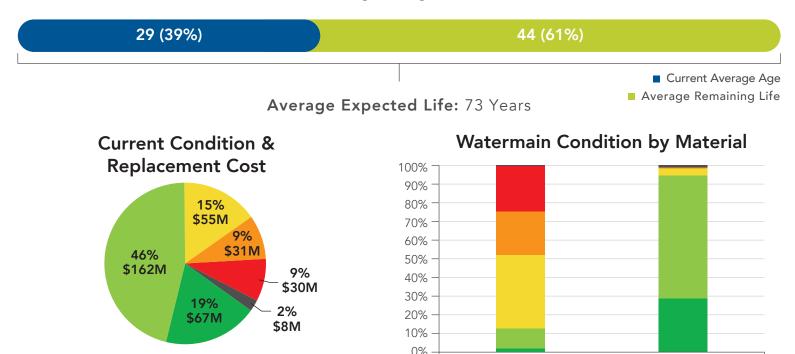

Watermains: 303 km Valves: 3,968 Hydrants: 2,277

#### **DETAILS:**

#### **Life Expectancy**

To date, our water distribution system has used on average, 39% of its intended life span with 61% of its life span remaining.

Average Rating: Good.

Poor condition assets are mostly attributed to iron watermains, which are older and known to break easily.

New PVC pipes do not have this vulnerability.

#### **CURRENT CAPITAL SPENDING**

# 2021 Preliminary Draft Capital Budget Staff Report to Council

Report Number: 2020-79

Department(s): Financial Services

Author(s): Mike Mayes, Director, Financial Services/Treasurer

Meeting Date: October 19, 2020

#### Recommendations

- 1. That the report entitled 2021 Preliminary Draft Capital Budget dated October 19, 2020 be received; and,
- 2. That subject to any additional direction from Committee, that the proposed Capital Budget be incorporated into the Draft Budgets to be presented to Committee of the Whole on December 7, 2020; and,
- 3. That the proposed list of Capital Projects be included in the Capital Program for 2021, subject to changes that may be made by Council during the year; and,
- 4. That the Treasurer be authorized and directed to do all things necessary to give effect to these recommendations.

#### **Executive Summary**

The Capital Budget provides for \$37.9 million in expenditures in 2021. This consists of a \$34.9 million Capital Program - projects to be delivered in 2021, and a \$3 million provision for additional projects to be added.

There is both operational and financial capacity to deliver the recommended Capital Program.

Wherever possible, Fiscal Strategy recommendations have been implemented.

#### **Purpose**

The purpose of this report is to obtain Council's direction on the overall Capital Budget and the inclusion of specific projects included in the Capital program.

#### **Background**

Report 2020-35, 2021 Budget Process and Target set out the structure for the Capital Budget and Program.

The Preliminary 2021 Draft Budgets were presented on October 5, 2020 as a starting point for community consultation and Council consideration.

#### **Updates**

Appendix "A" is a summary of the projects included in the proposed 2021 Capital Program. This includes new projects – Appendix B, additions to the Capital Program, and expenditures deferred from 2020.

Correction: The previous project listing did not include CYFS 3 - \$750,000 for the replacement of a fire truck (06-15). This had been included in the original submission but was not included in the summary and now has been corrected.

#### **Budgeting in a COVID-19 world**

The COVID-19 pandemic has affected the delivery of the 2020 Capital Program. As a result, Council authorized the deferral of \$ 6,726,000 in capital expenditures to 2021 (see Report 2020-62, Financial Update of August 24, 2020).

#### The CYFS capital budget has been reviewed by JCC

The Newmarket / Aurora Joint Council Committee (JCC) met on October 13, 2020 to review and make recommendations on the Central York Fire Services (CYFS) budgets. No changes were made to the capital budget submission.

#### **Discussion**

#### THE CAPITAL BUDGET FITS WITHIN OUR OPERATIONAL CAPACITY

There is a limit on what the Town's dedicated capital project staff in Engineering, Public Works and Procurement can reasonably manage in a year. To recognize this, a limit of \$20 million has been applied to the Standard portion of the Capital Program.

Major items require minimal effort from dedicated capital project staff. They either involve other staff (such as Fire Station 4-5 being managed by Aurora staff) or have a very high expenditure to staff effort ratio (such as the Advanced Metering project). These projects do not impede delivery of the Capital Program.

The 2021 Capital Budget and Capital Program

|                   | Standard | Major          | Total   |
|-------------------|----------|----------------|---------|
|                   |          | In \$ millions |         |
| Additions in 2021 | \$ 13.7  | \$ 1.7         | \$ 15.4 |
| Approved in 2020  | 3.3      | 16.2           | 19.5    |
| Program           | \$ 17.0  | \$ 17.9        | \$ 34.9 |
| Unallocated       | 3.0      |                | 3.0     |
| Budget            | \$ 20.0  | \$ 17.9        | \$ 37.9 |

*Program* - Appendix "A" lists all of the projects that are currently included in the Capital Program. It has the Decision Package details for each one. During the year, as projects are delayed, priorities change, or opportunities arise Council may add or remove projects from the Program.

Additions in 2021 are new projects and are listed in Appendix "B".

Approved in 2021 includes \$12.7 allocated to 2021 during the 2020 budget process (see Report 2020-35, 2021 Budget Process and Target) and \$6.7 million deferred from 2020 (see Report 2020-62, Financial Update).

Budget is the overall funding envelope, which includes the *Program* and an *Unallocated* provision for Council to add more Standard projects while remaining within the Operational Capacity.

#### **Capital Program by Department**

| Area                           | Standard | Major            | Total   |
|--------------------------------|----------|------------------|---------|
|                                |          | (In \$ millions) |         |
| CYFS                           | \$ 0.6   | \$ 9.6           | \$ 10.2 |
| Engineering - capital projects | 8.8      |                  | 8.8     |
| Engineering - transportation   | 0.4      |                  | 0.4     |
| IT                             | 8.0      |                  | 0.8     |
| Library                        | 0.2      |                  | 0.2     |
| Public Works – Facilities      | 8.0      |                  | 0.8     |
| Public Works – Parks           | 1.0      |                  | 1.0     |
| Public Works – Roads           | 3.7      |                  | 3.7     |
| Stormwater                     | 0.1      |                  | 0.1     |
| Water / wastewater             | 0.3      | 8.3              | 8.6     |
| Other                          | 0.3      |                  | 0.3     |
|                                | \$ 17.0  | \$ 17.9          | \$ 34.9 |

#### THE CAPITAL BUDGET FITS WITHIN OUR FINANCIAL CAPACITY

#### **Capital Program Funding by Category**

|                         | ARF     | DC     | General      | Other   | Total   |
|-------------------------|---------|--------|--------------|---------|---------|
|                         |         | (ii    | n \$ million | s)      |         |
| Mandatory               | \$ 2.3  | \$ 0.1 | \$ 0.0       | \$ 0.3  | \$ 2.7  |
| Replacement             | 9.2     | 1.2    | 0.1          | 10.8    | 21.3    |
| Growth                  | 1.1     | 6.0    | 0.1          | 3.2     | 10.4    |
| Service Level<br>Change |         |        |              | 0.5     | 0.5     |
|                         | \$ 12.6 | \$ 7.3 | \$ 0.2       | \$ 14.8 | \$ 34.9 |

The Capital Program is primarily to meet Replacement (61%) and Growth (30%) requirements.

The Asset Replacement Fund (ARF) is the primary funding source (36%) followed by Development Charges (DC) (20%).

#### Others include:

- \$8.3 million from Water and Wastewater Reserves for the Advanced Metering project – funding from additional revenues and savings
- \$1 million from other reserves and reserve funds
- \$2.5 million from the 2021 Federal Gas Tax allocation

\$2.5 million from the Town of Aurora – their share of DC's for Fire Station 4-5

#### Conclusion

#### **Upcoming dates:**

- November 9 Special Committee of the Whole meeting dedicated to review the Tax-Supported Operating Budget and the Fiscal Strategy
- December 7 Committee of the Whole Presentation of the Draft Budgets and remaining fees & charges for approval
- December 14 this is the target date for approval of the 2021 budget and remaining fees & charges

Council may choose to extend this time for further deliberations.

There will also be opportunities for Councillors to meet with or to obtain additional information from the Treasurer or other Members of Staff.

#### **Business Plan and Strategic Plan Linkages**

Consideration has been given to the recommendations of the Fiscal Strategy:

- Council approval of Capital Spending Authority in the budget should constitute the authority to spend on a capital project, and approval of both the annual capital budget and Capital Spending Authority each year
- Capital carryovers should be eliminated (achieved in the 2020 budget process but needs to be continued)
- The capital budget should include breakdowns of growth versus rehabilitation
- The budget process should include an analysis of the factors affecting capital priority setting and a discussion of the rationale for the capital projects selected for both Capital Spending Authority and the Ten-year Plan
- The capital budget overview should include both a departmental and a functional/sectoral breakdown

#### Consultation

This report builds on the presentation of the Preliminary Draft Budgets to Committee of the Whole on October 5, 2020. At the time of writing this report, there have been no comments or questions submitted on the Capital Budget.

#### **Human Resource Considerations**

Not applicable to this report.

#### **Budget Impact**

The Capital Budget of \$37.9 million provides some flexibility by allowing \$6.7 million for projects deferred from 2020 and the inclusion of new priorities that may arise during the year.

The proposed Capital Program would impact the Operating budgets:

- \$16,550 in net savings for the Tax-Supported Budget
- \$67,500 in annual expenses to be funded from Growth

These will be included in the Tax-Supported Operating Budget on November 9, 2020.

#### **2021 BUDGET Capital Decision Package Form Total Points** 24 Decision Package Item # CYFS 1 Project / Initiative Name Personal Protective Equipment & Uniforms for 2 New Recruits 4-6 Commission: CYFS **Business Unit Number: 21221 Division:** Fire Services **Business Unit Name:** Integrated Fire Services Service Level Maintenance/ Growth Yes Mandatory/Legislative Yes Classification (select one): Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... CYFS is required to supply new recruits with the appropriate personal protective equipment (PPE) as per the National Fire Protection Association (NFPA) 1971. There will be four sets (two sets each) of PPE required for the additional two firefighter positions. The PPE will include bunker gear, fire fighting gloves, helmets, balaclavas, firefighting boots, station wear and dress uniforms. Each set of bunker gear is custom fit to the individual to ensure the personal safety of each staff member while attending emergency situations. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY This is a growth, service level change and mandatory/legislative classification as it is consistent with the NFPA 1971. Priority If this item addresses a priority, please explain how it does so... Without issuing PPE, recruits will not be able to safely respond. Without a station uniform, recruits will be wearing their ordinary clothing which will not look professional and not provide adequate protection of clothing underneath their bunker gear. Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so.. Continuing to follow our past phased in hiring approach, this will assist CYFS to move toward a desired service level in the future (10 years) Business Case If this item provides a financial return, please explain how it does so... Risk Mitigation If this item mitigates a significant risk, please explain how it does so... Without supplying new staff with their PPE, recruit firefighters will not safely be able to respond to emergencies. In addition, without approved CYFS station wear/uniform, new recruits will not look professional at work and in the community. They will be in breach of CYFS's internal policy regarding uniform wear and appearance. Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. #### **2021 BUDGET Capital Decision Package Form** Decision Package Item # CYFS 4 **Total Points** 24 Project / Initiative Name Replacement of Equipment **Business Unit Number: 21221** Commission: CYFS **Division:** Fire Services **Business Unit Name:** Integrated Fire Services Maintenance/ Service Level Mandatory/Legislative Classification (select one): Growth Replacement Change Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... This is for lifecycle replacement and replacement of damaged fire and specialized equipment carried on Central York Fire Services (CYFS) fire apparatus and light vehicles (i.e. nozzles and hoses). Due to the vigorous firefighting type work, it is common for equipment to break at fire incidents and training exercises therefore having to be replaced. Fire trucks are stocked with a wide variety of specialized equipment that constantly needs replacing due to wear and tear. In addition, a minor amount represents replacement of fire station equipment such as fridges, stoves, washers, dryers, chairs, mattresses, etc. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY This is a maintenance/replacement classification due to lifecycle replacement of equipment that is not included in the CYFS Tangible Capital Asset Plan. Priority If this item addresses a priority, please explain how it does so... Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so... By replacing equipment CYFS will continue to meet fire service levels within the communities. Business Case If this item provides a financial return, please explain how it does so. Risk Mitigation If this item mitigates a significant risk, please explain how it does so... If CYFS does not replace equipment, the equipment inventory on the fire apparatus will start to decrease and CYFS will not be able to provide acceptable service to the communities of Aurora and Newmarket. By replacing equipment CYFS will continue to meet fire service levels within the communities. Additionally, by replacing station appliances and other station items (i.e. chairs) CYFS will ensure staff who are operating 24/7 out of the fire stations have adequate appliances and items available at the workplace. #### **2021 BUDGET Capital Decision Package Form Total Points** 24 Decision Package Item # CYFS 5 Project / Initiative Name Lifecycle Replacement of Personal Protective Equipment **Business Unit Number: 21221** Commission: CYFS **Division:** Fire Services **Business Unit Name:** Integrated Fire Services Service Level Maintenance/ Mandatory/Legislative Yes Classification (select one): Growth Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... Replacement of personal protective equipment (PPE) which consists of bunker gear, helmets, gloves, balaclavas, and firefighting boots. Replacement bunker gear and PPE are required for staff as per the 10 year lifecycle replacement date outlined in National Fire Protection Association (NFPA) 1971. Without this mandatory replacement, fire crews will not be able to response safely to any emergency responses which could result in catastrophic consequences. Use of outdated equipment could result in contravention of the Health & Safety Act. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY This is a mandatory/legislated and replacement classification. Lifecycle replacement of bunker gear, firefighting helmets and firefighting boots are set to be replaced at 10 years by the National Fire Protection Association (NFPA) 1971 standard and CYFS complies with this guideline for the protection of staff in line with Occupational Health & Safety Act, Section 31. CYFS is required to replace bunker gear, firefighting helmets and firefighting boots scheduled for replacement in 2021 as per NFPA 1971. Priority If this item addresses a priority, please explain how it does so... This is a priority as PPE is decommissioned after 10 years as per NFPA 1971 and is no longer able to be in service. Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so... See summary and classification sections. Business Case If this item provides a financial return, please explain how it does so. Risk Mitigation If this item mitigates a significant risk, please explain how it does so.. Without replacing firefighter PPE, the following will take place: CYFS will not meet NFPA guidelines, and if any of our personnel sustain an injury due to firefighting activities, CYFS will be in contravention of the Health and Safety Act and a possibility of litigation. In addition, if CYFS does not replace the PPE, the employee (firefighter) has the right to refuse work according to the Occupational Health and Safety Act. Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. Identify by checking all boxes that apply below.. **Customer Services** Building Engineering HR Legislative Services Planning Operations Legal **Finance** Recreation & Culture **Procurement Parks** Communications **Facilities** Other Please discuss item with relevant areas and include their comments below... The main objectives of OSIM inspections are to ensure public safety, to maintain structures in a safe condition and to provide a basis for a structure management system for the planning and funding of the maintenance and rehabilitation of structures. Therefore, this program aligns with the Council and Town's top priorities to ensure public safety within the municipality. It also aligns with the Council's priorities such as; Long-Term Financial Sustainability and Safe Transportation Streets.

#### Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so...

By undertaking this assignment, detailed material defects, performance deficiencies and maintenance needs of the inspected structures will be identified. Therefore, this will ensure public safety within the municipality. This will also ensure that the Town can improve our existing desired service levels.

Business Case If this item provides a financial return, please explain how it does so...

One of the main objectives of OSIM inspection is to provide a basis for a structure management system for the planning and funding of the maintenance and rehabilitation of structures. As such, the outcome of the OSIM inspection will contribute to protect and prolong the useful life of the structures.

Risk Mitigation If this item mitigates a significant risk, please explain how it does so...

If the Town does not conduct this study, we are breaking the law (Ontario Regulation 104/97) and will be subject to stiff fines or penalties. Furthermore, the Town would be held liable for any damages or deaths arising from structural defects. Bridges and large diameter culvert deficiencies pose a significant risk to municipalities in terms of public safety and structure management system funding resources. By conducting this study, we can assess material defects, performance deficiencies and maintenance needs of a structure and carrying out the required scope of work at the appropriate time. Therefore, public safety and funding resources risks will be identified and managed.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                     |

#### **2021 BUDGET Capital Decision Package Form** Decision Package Item # PARK 1 **Total Points** 24 Project / Initiative Name Fairy Lake Boardwalk Design Commission: Development & Infrastructure Services **Business Unit Number:** 52811 Division: Public Works - Parks Business Unit Name: Parks Service Level Maintenance/ Mandatory/Legislative Yes Classification (select one): Growth Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... Existing boardwalk is 906 feet long by 6 feet wide of boardwalk that connects the Town office portion of the boardwalk to the East side of Fairy Lake. This boardwalk needs to be replaced due to constant shifting and rotting of existing boards. Existing concrete footings were removed ten years ago and a floating boardwalk system was created. Multiple issues have occurred since completion of the floating boardwalk system including shifting areas creating an inconsistent path on the walkway which creates a safety hazard. This project is for replacement design. The new boardwalk footings would eliminate any shifting or flexing in turn eliminating safety hazards. Hemlock wood would be used to create the new boardwalk minimizing rotting. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY Due to the number of weather related events, we have had to shut down the boardwalk because of the flooding and unsafe conditions approximately 10 times per year. Completion of this project will reduce that number to approximately 2 times per year when the river floods the boardwalk, which is out of our control, not health and safety related. Priority If this item addresses a priority, please explain how it does so... This project falls under Council Strategic Priority Safe Transportation, i. Incorporate technology/data driven tools and tactics into engineering design and enforcement measures related to the safety of vehicles, pedestrians, and other transportation modes in order to enhance trail and street safety. Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so... This would ensure safe passage for park and trail users maintaining our current level of service. Business Case If this item provides a financial return, please explain how it does so... Risk Mitigation If this item mitigates a significant risk, please explain how it does so. The rotting boards and the constant shifting lead to many hazards such as trip hazards, slip and falls and rotting boards with the potential to fall through. If this project does not come through, due to health and safety reasons we will have to shut the boardwalk down. Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                       |                       |                        | <u>-</u>             |                      |                                    |                     |            |                   |                 |

#### **2021 BUDGET Capital Decision Package Form Total Points** 24 Decision Package Item # SW 2 Project / Initiative Name | Stormwater Wet Pond Bathymetric Surveys Commission: Development & Infrastructure Services **Business Unit Number:** Division: Engineering - Stormwater **Business Unit Name:** Stormwater Service Level Maintenance/ Classification (select one): Growth Mandatory/Legislative Yes Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... A bathymetric survey maps out the bottom elevations of a water body, in this case, a stormwater management pond. When the bathymetric survey results are compared to the as-built design or survey of a stormwater management pond, we are able to calculate how much sediment has been deposited into the pond. The completion of bathymetric surveys for the Town's ponds provides crucial information to: - meet requirements for ponds that have been issued Environmental Compliance Approvals issued by the Ministry of Environment, Conservation, and Parks: - prioritize a cleanout schedule; - provides more accurate cost estimates used for budgeting purposes of sediment removal projects; - and to analyze the positive environmental impacts from removing sand in the winter roads operations. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY Under Section 53 of the Ontario Water Resources Act R.S.O 1990, sewage facilities, including stormwater management ponds, require an Environmental Compliance Approval (ECA). ECA outlines conditions including inspection and reporting requirements for a facility that must be met or the Town can face legal and liability consequences. This project addresses the ECA requirements and the recommendations in the Town's Comprehensive Stormwater Management Master Plan, adopted by Council in 2017. Priority If this item addresses a priority, please explain how it does so... One of Council's and the Town's top priorities is Long-term Financial Sustainability, and Environmental Stewardship. This initiative will achieve these priorities by providing necessary information to develop a multi-year stormwater sediment removal plan, and an increased accuracy to sediment removal cost estimates. It also ensures that the Town is being proactive environmental stewards by prioritizing sediment cleanouts in our facilities, thereby reducing contaminants from entering our watercourses and Lake Simcoe. Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so... This request supplements the stormwater operating budget to meet compliance. Much work needs to take place to catch up on the maintenance of our ponds and ensure the Town is meeting its legislative obligations. Stormwater facilities need to be cleaned out once their sediment efficiency removal rate drops by 5%. This usually occurs once they become 50% full of sediment. Bathymetric surveys from previous years have discrepancies and are outdated. Through previous surveys and desktop calculations, it is estimated 11 ponds have exceeded the 50% accumulation threshold, and another 6 will by 2025. Completion of bathymetric surveys will allow the confirmation of these calculations, and allow for the creation of a prioritization list and multi-year plan and budget with improved cost estimations ensuring our due diligence is being conducted. Business Case If this item provides a financial return, please explain how it does so... This item will not provide a financial return. Risk Mitigation If this item mitigates a significant risk, please explain how it does so... Reduces the risk of being outside of compliance with the MOE regulations (specify); mitigates large, unexpected expenditures Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. Identify by checking all boxes that apply below. **Customer Services** Building Engineering HR Legislative Services Planning Operations Legal Finance **Recreation & Culture** Communications **Procurement Parks Facilities** Other

### **2021 BUDGET Capital Decision Package Form Total Points** 22 Decision Package Item # COMM 1 Project / Initiative Name Web - AODA compliance Commission: Office of the CAO **Business Unit Number:** 13141 **Division:** Corporate Communications **Business Unit Name:** Corporate Communications Service Level Maintenance/ Mandatory/Legislative Yes Classification (select one): Growth Yes Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... To meet AODA Legislation for the Communications Standard - must have web site and all documents accessible. We are overhauling the web site and all document must be AODA compliant in 2020. We also need to continue training and licencing staff and converting documents to meet the legislation. Install digital tools to meet the needs of our audience for all digital tools. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY Mandatory/Legislation Priority If this item addresses a priority, please explain how it does so... We must meet AODA legislation and we are not currently - higher standard put in place for 2020 - still not meeting compliance for all docs on web. Council's strategic priority of engagement under Financial Sustainability would support the service of engaging residents and making our online content accessible. Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so... As we increase compliance with the legislation, more people with different abilities will be able to access our online content and services. Business Case If this item provides a financial return, please explain how it does so... The Accessibility for Ontarians with Disabilities Act (AODA) allows for severe maximum monetary penalties for any violation to the Act. The maximum penalties under the AODA include: A person and unincorporated organizations that are quilty of a major offence under this Act can be fined up to \$50,000 dollars for each day the violation continues A corporation that is guilty can be fined up to \$100,000 per day Directors and officers of a corporation with fiduciary responsibility who are guilty are liable to a fine of up to \$50,000 a day Risk Mitigation If this item mitigates a significant risk, please explain how it does so.. By continuing to make strides in becoming OADA compliant - the government is more lenient if there is a commitment to investing in the tools to make our content accessible. The feeling among York Region communicators is that there remains focus on this legislation and perhaps charges are imminent. Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. Identify by checking all boxes that apply below. **Customer Services** Yes Building Yes Engineering Yes HR Yes Yes Legislative Services Planning Operations **Finance** Yes Yes Yes Legal Yes Yes **Recreation & Culture Procurement Parks Facilities** Yes Yes Yes Communications Yes Yes Other Please discuss item with relevant areas and include their comments below...

# **2021 BUDGET Capital Decision Package Form Total Points** 22 Decision Package Item # FAC 1 Project / Initiative Name | Facilities Asset Replacement Commission: Development & Infrastructure Services **Business Unit Number: 57301** Division: Public Works - Facilities **Business Unit Name:** Facilities Administration Maintenance/ Service Level Growth Mandatory/Legislative Yes Classification (select one): Replacement Change Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... This request is for lifecycle replacement and rehabilitation of various assets at various town facilities', assets included in this list are: RJT Pool air handling unit (end of life), RJT dry sprinkler system (phase 2 of an emergency repair completed in 2019), Magna Centre boiler room repairs (DHWT tank maintenance and tube bundle replacements), Magna Centre pool filter room repairs (pump replacements, pipe works, etc.), Community Centre improvements (stair railing installation, hot water system modification, canopy sprinkler coverage or modification to combustible siding). Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY This request is required in order to comply with existing legislation requirement such as: TSSA, Public Health, Building Code and Ontario Fire Code to maintain occupancy. Priority If this item addresses a priority, please explain how it does so... Completion of these projects will allow for the protection of the various assets mentioned previously. Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so.. This request is to maintain current service levels. Business Case If this item provides a financial return, please explain how it does so... This request is for required work as outlined in the various regulatory bodies mentioned above. These regulations generally allow for building occupancy. Risk Mitigation If this item mitigates a significant risk, please explain how it does so... Deterioration of our assets poses health and safety risks to staff and user groups with the potential to incur liability. Forced building closures from asset failure would result in major service disruptions, negative local media exposure and loss of revenue from Recreational programming.

## **2021 BUDGET Capital Decision Package Form** Total Points Decision Package Item # GG1 21 Project / Initiative Name Development Charges / Community Benefit Charges (DC/CBC) Commission: General Government **Business Unit Number: Division:** Financial Services **Business Unit Name:** Service Level Maintenance/ Classification (select one): Growth Yes Mandatory/Legislative Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... This would entail two things: revising the current Development Charges (DC) bylaw and background study; and the creation and implementation of a Community Benefits Charges (CBC) strategy and bylaw. Although the current DC bylaw is not due for update for three more years, the province's COVID-19 Economic Recovery Act has created opportunities to generate additional revenues.. It is recommended that the two studies be coordianted to realize efficiencies. and to ensure that there is no overlaps or gaps between the two. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY Both of these studies are funded from growth revenues, and set rates for future growth revenues. Priority If this item addresses a priority, please explain how it does so... The DC and CBC studies are multi-year capital plans that support the Council priority - Develop a multi-year operating and capital budget that aligns with Budget Policies. These studies addresses two recommendations from the Fiscal Strategy. Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so... N/A Business Case If this item provides a financial return, please explain how it does so... There is an opportunity to increase growth revenues. DC's can benefit from the removal of the 10% discount and recognize changes in growth trends. A CBC can bring in additional revenues. The DC update would be funded by DC's and is included in the current DC study. The CBC study would either be funded from DC's as a general government study or recovered from future CBC collections. Risk Mitigation If this item mitigates a significant risk, please explain how it does so... Financial Impact - missing potnetial annual revenues in the \$125,000 to \$500,000 range. Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. Identify by checking all boxes that apply below.. **Customer Services** Building Engineering Legislative Services **Planning** Operations Legal **Finance Recreation & Culture Procurement Parks** Communications **Facilities** Other Please discuss item with relevant areas and include their comments below... ## **2021 BUDGET Capital Decision Package Form Total Points** 21 Decision Package Item # CYFS 2 Project / Initiative Name | Fire Truck & Equipment 2006 American Le France Fire Truck (Fleet # 06-15) E432 Commission: CYFS **Business Unit Number: 21221 Division:** Fire Services **Business Unit Name:** Integrated Fire Services Service Level Maintenance/ Mandatory/Legislative Classification (select one): Growth Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... Central York Fire Services (CYFS) currently has two obsolete fire trucks (American La France) that we can no longer get parts for. CYFS received approval from council in the 2020 budget to replace one of the American La France fire trucks. CYFS is seeking to replace the second fire apparatus E432, 2006 (06-15, American La France). The truck manufacturer American La France has not been in existence for the past seven years and truck parts are not available to order. Town of Newmarket Fleet Services has advised CYFS that they are noticing a significant amount of breakdowns which would impact the operational budget. All CYFS vehicles are moved to reserve status after 15 years and are maintained for an additional five years before they are removed out of service. Due to the manufacturer being non-existent, this fire apparatus will not be able to maintain its reserve status for an additional five years. This expenditure will be funded by the Asset Replacement Fund. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY This is a replacement classification. The manufacturer no longer exists, parts are unavailable and more break downs are occurring. Priority If this item addresses a priority, please explain how it does so... Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so... This apparatus will not be a primary vehicle, therefore the total cost of the truck is lower than a primary vehicle and should be operational for the full 20 years. Business Case If this item provides a financial return, please explain how it does so. Risk Mitigation If this item mitigates a significant risk, please explain how it does so... The truck manufacturer American La France has not been in existence for the past seven years and truck parts are not available to order. Therefore, Fleet Services is not able to maintain/repair the apparatus. This apparatus is a reserve apparatus in the CYFS fire fleet for when a primary truck is out of service due to repairs/maintenance. The reserve fire truck becomes a primary first run fire truck daily, due to unexpected break downs and routine maintenance. CYFS reserve vehicles are used constantly. Without replacing this apparatus, we are limited in our reserve fleet to accommodate primary vehicles going out of service. ### **2021 BUDGET** Capital Decision Package Form Decision Package Item # PLN 1 **Total Points** 21 Project / Initiative Name Official Plan Review and Update Commission: Development & Infrastructure Services **Business Unit Number:** 68121 **Division:** Planning Business Unit Name: Planning Service Level Maintenance/ Classification (select one): Growth Yes Mandatory/Legislative Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... The funds will be used for the Town's Official Plan Review and update. The Planning Act requires municipalities to regularly review their official plans every five years. The Town's Official Plan was adopted in 2006, which means the review is long overdue. The objectives of the Official Plan Review will focus on several areas of concentration including but not limited to: consistency with the Provincial Policy Statement. Growth Plan, Greenbelt Plan, Oak Ridges Conservation Plan, Conservation Authority, Region of York Official Plan and other provincial and regional policies, conformity with new planning legislation (i.e.. Bill 108), consistency between the Official Plan and Secondary Plans (i.e., Mulock Station Area Secondary Plan), the Established Neighbourhoods Compatibility Study, and Urban Design Guidelines. The update will include specific analysis and direction for the South of Davis Drive Area (SODA). The review provides an opportunity to ensure the Official Plan continues to address local priorities and changing community needs. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY This project is classified as Mandatory/Legislative (Planning Act) and Growth. Priority If this item addresses a priority, please explain how it does so... The Official Plan Review falls under Council's "Economic Leadership and Job Creation", "Vibrancy on Yonge, Davis and Mulock", and "Extraordinary Places and Spaces" Strategic Priorities. The South of Davis Area (SODA) study is explicitly stated as part of the Council's "Economic Leadership and Job Creation" Strategic Priority. The key action item is "Start a land use study in 2021 for completion by the end of 2022, to facilitate redevelopment of the area bounded by Millard to the South and Davis Drive to the north (SODA)". This strategic priority states that the study area should be examined for concerted growth/redevelopment. It also falls under Council's "Vibrancy on Yonge, Davis and Mulock" Strategic Policy, as the policy frameworks and practices will address growth and development along the corridors and the Mulock Station Area Secondary Plan. The Official Plan Review will be used to create an environment for an engaged, accessible and inclusive community, which falls under Council's "Ext ordinary Places and Spaces" Strategic Policy. Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so... The Official Plan Review moves toward a desired service level of supporting growth and development. This is accomplished by providing an updated Official Plan document outlining the goals, objectives and policies intended to guide future land use, physical development and growth within the Town to staff, developers and local residents. Business Case If this item provides a financial return, please explain how it does so... This item does not provide a financial return at this time. Risk Mitigation If this item mitigates a significant risk, please explain how it does so... The Official Plan Review will enable the Town to appropriately respond to the requirement of the Planning Act to review the official plan every 5 years. It is important to ensure the Official Plan is consistent with the Provincial Policy Statement (2020), Growth Plan (2019), Region of York MCR (Fall 2020), Bill 108 - More Homes, More Choices Act (2019), and other provincial and regional plans and policies and Town's studies such as SODA. Planning decisions need to be consistent with these higher-order planning documents, as expressed locally through the Official Plan. There is risk with not having an Official Plan that is updates for consistency because local planning decisions will not be consistent with the higher-order planning documents, which reduces chances of success when defending planning decisions at the LPAT. Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. Identify by checking all boxes that apply below.. **Customer Services** Building Engineering Yes Legislative Services **Planning** Yes (lead) **Operations** Legal **Finance Recreation & Culture Procurement Parks** Communications **Facilities** Other Ec. Dev. Please discuss item with relevant areas and include their comments below... Department Comments

# **2021 BUDGET** Capital Decision Package Form **Total Points** Decision Package Item # CYFS 8 21 Project / Initiative Name Station 4-5 Additional Funding Commission: CYFS **Business Unit Number: 21221** Business Unit Name: Integrated Fire Services **Division:** Integrated Fire Services Classification (select one): Growth Yes Service Level Change or Maintenance Mandatory/Legislative Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... The total approved budget for the design and construction of the jointly owned firehall project has been increased to \$13,567,727. The additional amount requested is \$917,727 in order to build the Fire Hall under its current design. Previously, CYFS requested \$3 Million in 2016 and \$2.5 Million in 2017. The land acquisition cost was less than the \$4.5 Million budgeted, leaving \$690,000 to be applied to the construction phase. In 2019 CYFS requested \$4.81 Million. Council confirmed its authorization of this amount, requested in CYFS Report 2018-26 on June 18, 2018. In 2020, Council approved an increase of \$1,650,000. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative)... This is a growth classification. However, as surplus CYFS funds will be transferred to asset replacement funds, development charges will not be used to fund this amount. Priority If this item addresses a priority, please explain how it does so... Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so... The construction of the 5th fire station addresses a need outlined in the Fire Master Plan. Business Case If this item provides a financial return, please explain how it does so... Risk Mitigation If this item mitigates a significant risk, please explain how it does so... Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consultation is required. ### Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY

The Town Assets are existing and therefore require replacement or rehabilitation to provide an adequate service level and reduce the likelihood and consequences of failure (e.g. Watermain breaks, sewer backups and road failures). For projects that include upgrading water or wastewater systems, the portion of upgrade is classified as Growth. This portion is therefore funded through Development Charges.

### Priority If this item addresses a priority, please explain how it does so...

Long-Term Financial Sustainability: Timely replacement/ rehabilitation of the municipal infrastructure ensures effective & efficient service delivery and management of the assets. Future results from the completion of the Asset Management Plan is anticipated to indicate that investment in this Capital Program will need to double or triple to achieve a sustainable level of service.

### Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so...

The related projects will move towards a sustainable asset replacement program for the Town. These projects will reduce/eliminate the amount of staff time spent on repairing broken watermains, responding to blocked sanitary sewers, patching potholes, repairing trip hazards, paying third party claims, etc. Future programs will need to grow substantially to meet acceptable levels of services.

Business Case If this item provides a financial return, please explain how it does so...

The efficient & effective management of municipal infrastructure assets is imperative to the financial sustainability of the Town. Timely and appropriate measures taken through the construction of the related projects will properly manage the asset's service life and will result in a net lower cost to the Town.

### Risk Mitigation If this item mitigates a significant risk, please explain how it does so...

Some of the risks mitigated are unplanned service interruptions as a result of watermains breaks, blocked sewers, road repairs/sinkholes. The major risks are financial that would result from the ineffective management of the Town municipal infrastructure.

## **2021 BUDGET Capital Decision Package Form** Decision Package Item # ROAD 3 **Total Points** 18 Project / Initiative Name Fleet Replacements **Business Unit Number: 32210** Commission: Development & Infrastructure Services Division: Public Works - Road Business Unit Name: Road Service Level Maintenance/ Mandatory/Legislative Classification (select one): Growth Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... Replacement of vehicles/Fleet assets for all departments. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY Replacing of fleet assets up for renewal in all departments in order to maintain a sound working fleet. Priority If this item addresses a priority, please explain how it does so... As part of Council's priorities for long term financial sustainability, fleet replacements coincide with developing a multi-year capital budget that aligns with budget policies. This ensures continuous improvement and helps maintain service levels by implementing a replacement points schedule which will help in completing a comprehensive and up-to-date asset management plan that reflects a Corporate Risk Strategy and continued investment in Asset replacement funding. Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so.. In order to maintain existing service levels vehicle replacements are essential in all divisions. Business Case If this item provides a financial return, please explain how it does so... Risk Mitigation If this item mitigates a significant risk, please explain how it does so... Having sound working equipment that is well maintained and replaced on a suitable schedule reduces risks. Unnecessary downtimes and not having vehicles that are useable for critical maintenance issues like snow events, water main breaks, damage from micro storms and fires can lead to claims and negative press for the Town. Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. Identify by checking all boxes that apply below.. **Customer Services Building** Engineering HR **Legislative Services** Legal **Planning** Operations **Finance Recreation & Culture Parks** Communications **Procurement Facilities** Other Please discuss item with relevant areas and include their comments below... ## **2021 BUDGET Capital Decision Package Form Total Points** 15 Decision Package Item # CYFS 3 Project / Initiative Name Replacement of Platoon Chief Emergency Response Vehicle (CH45) **Business Unit Number: 21221** Commission: CYFS **Division:** Fire Services **Business Unit Name:** Integrated Fire Services Service Level Maintenance/ Mandatory/Legislative Classification (select one): Growth Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... Replacement of CH-45 Platoon Chief vehicle. The cost includes: reflective striping, slide-out tray, storage cabinets, radio's and emergency lighting. This request is consistent with the CYFS Asset Management Plan as approved by JCC. Chief 45 is a 2012 Ford Expedition response vehicle and is one year overdue to be replaced. This vehicle is starting to show signs of wear and tear. This vehicle will become the primary response vehicle and will be known as CH44. The correct CH44 will be moved to reserved status for an additional 4 years. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY Maintenance Replacement per CYFS Asset Management Plan approved by JCC. Priority If this item addresses a priority, please explain how it does so... This vehicle is one year overdue to be replaced. This falls under Council Strategic Priority - Long Term Financial Sustainability (Asset Mgmt. Plan). Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so... This vehicle is required to be replaced because when the primary vehicle (CH44) goes out of service due to maintenance, we rely on CH45 to be the primary response vehicle. Business Case If this item provides a financial return, please explain how it does so. Risk Mitigation If this item mitigates a significant risk, please explain how it does so... This vehicle is required to be replaced because when the primary vehicle (CH44) goes out of service due to maintenance, we rely on CH45 to be the primary response vehicle. Without the replacement of CH45, this could potentially result in the lack of response from the Platoon Chief to manage incidents. Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. Identify by checking all boxes that apply below.. **Customer Services** Building Engineering HR Legislative Services Planning Operations Legal **Finance** Recreation & Culture **Procurement Parks** Communications **Facilities** Other Please discuss item with relevant areas and include their comments below... ## **2021 BUDGET Capital Decision Package Form** Decision Package Item # ROAD 2 **Total Points** 15 Project / Initiative Name Road Resurfacing Program Commission: Development & Infrastructure Services **Business Unit Number: 32210** Division: Public Works - Road **Business Unit Name:** Road Service Level Maintenance/ Mandatory/Legislative Classification (select one): Growth Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... This is an annual program which addresses roads that require resurfacing because of surface distresses, and to improve ride quality. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY This is a replacement program. Priority If this item addresses a priority, please explain how it does so... This request is related to Council Strategic Priority - Safe Transportation (Streets)- Develop complete street reconstruction methodology to support ongoing safe street initiatives. Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so.. As roads age, surface distresses start to appear (i.e. cracks, ruts, alligatoring). By removing and replacing the surface course of the asphalt layer helps extend the life cycle of the road, and improves the ride quality for the road users. Business Case If this item provides a financial return, please explain how it does so... Risk Mitigation If this item mitigates a significant risk, please explain how it does so... As surface distresses form, things like pot holes can cause damage to cars, trip hazards to pedestrians, and obstacles to bicyclists. Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. Identify by checking all boxes that apply below.. **Customer Services Building** Engineering HR **Legislative Services Planning** Operations Legal **Finance Recreation & Culture Parks** Communications **Facilities Procurement** Х Other Please discuss item with relevant areas and include their comments below... # **2021 BUDGET Capital Decision Package Form Total Points** 13 Decision Package Item # LIB1 Project / Initiative Name Computer Hardware & Software Commission: Community Services **Business Unit Number: Division:** Library **Business Unit Name:** Maintenance/ Service Level Mandatory/Legislative Classification (select one): Growth Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... This package represents replacement of critical network hardware and public and staff workstations as well as renewal of critical software including public/staff printing system and library website. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY These are mostly critical systems which will need replacement/renewal as they are at end of life or require mandatory software license renewal. **Priority** If this item addresses a priority, please explain how it does so... Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so.. These items maintain existing service levels by replacing end-of-life infrastructure or renewing mandatory software. The website replacement is not mandatory but instead maintains service levels by ensuring the website meets the evolving needs of users. Business Case If this item provides a financial return, please explain how it does so... Risk Mitigation If this item mitigates a significant risk, please explain how it does so... The risk is that of failing systems that would no longer support the business of the library and result in interruption of service to residents. Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. Identify by checking all boxes that apply below... **Customer Services** Building Engineering HR Legislative Services **Planning** Operations Legal Finance **Recreation & Culture** Parks Communications **Facilities Procurement** Other Please discuss item with relevant areas and include their comments below... # **2021 BUDGET Capital Decision Package Form Total Points** 12 Decision Package Item # ENG 1 Project / Initiative Name | Active Transportation Implementation Plan 2021 Commission: Development & Infrastructure Services **Business Unit Number:** 62122 **Division:** Engineering Services - Transportation **Business Unit Name:** Engineering Services Service Level Maintenance/ Growth Yes Mandatory/Legislative Classification (select one): Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... These funds are to continue the Active Transportation Implementation Plan (ATIP) for 2021, which lists bike lanes on both sides of the street for Clearmeadow Boulevard and William Roe Boulevard. The ATIP provides cycling connections to existing cycling facilities and trails to enhance connectivity throughout the Town and promote cycling as an alternative to Single Occupancy Vehicles. The funds will be used to install necessary pavement markings with durable paint, signage and symbols. This is part of the 5-year Active Transportation plan, which was approved by Council as part of the Newmarket Official Plan and the Secondary Plan after extensive public consultation. The ATIP was also the subject of public input at the Transportation Congress held in 2018. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY As the population increases in the Town and as the Active Transportation Network develops, there is a GROWTH in demand for safe and direct cycling routes from existing and new areas of Town. The dedicated bike lanes would provide an increased LEVEL OF SERVICE in safety. The bike lanes provide clear designation as to where vehicles travel and where bicycles travel. Priority If this item addresses a priority, please explain how it does so... This project fulfills Council's Strategic priorities under Safe Transportation, ii) Continue to implement traffic mitigation strategy and Active Plans Transportation Plan and explore/ advance an off-road Mulock multi-use path, and v) Develop a 'complete street' design and construction / reconstruction methodology to support ongoing safe streets initiative and continue to explore design options related to speed reduction, where appropriate. This project is part of the Active Transportation Plan, and is forming part of a 'Complete Streets' design by providing multiple mode options within the same road corridor. This project is part of the key action item "Implement the Active Transportation Implementation Plan (ATIP) for both on and off road projects". Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so... By providing bike lanes on Clearmeadow Boulevard and William Roe Boulevard, residential collectors, this increases the level of service for cycling safety AND has shown to decrease the level of speeds thereby increasing the communities quality of life. Business Case If this item provides a financial return, please explain how it does so... This item does not provide a financial return at this time. Risk Mitigation If this item mitigates a significant risk, please explain how it does so.. This project, and bicycle lanes in general, provide increased safety and reduce the significant risk of vehicle 'cyclist collision. By providing clear designation and separation, the risk is significantly reduced.

### Section 2 Collaboration and Consultation

### **2021 BUDGET** Capital Decision Package Form Decision Package Item # ENG 7 **Total Points** 12 Project / Initiative Name Trails & Multi-Use Path Commission: Development & Infrastructure Services **Business Unit Number: 32101 Division:** Engineering Services Business Unit Name: Capital Projects Service Level Maintenance/ Classification (select one): Growth Yes Mandatory/Legislative Change Replacement Section 1 Description Summary Please provide a brief summary of what the proposed budget item is... This program includes the project management, design and construction of trails and any off-road (e.g. Multi-Use Paths) projects and their amenities in accordance with the Council endorsed Active Transportation Network. This program includes the North West Quadrant Trail project. Classification Please provide an explanation for the classification (i.e. Growth, Service Level Change, Mandatory/Legislative) QUOTE BILL NO. OR AGREEMENT SUPPORT FOR MANDATORY These projects are identified through the off-road portion of the Town's Active Transportation Implementation Plan (ATIP) which is part of the Council-approved Newmarket Centres Secondary Plan, and the Town's Official Plan, which are related to the Growth of the Town. Priority If this item addresses a priority, please explain how it does so... Safe Transportation (Streets): This Program delivers the Key Action Item of implementing the Active Transportation Implementation Plan (ATIP). The program provides for off-road transportation for cyclists and pedestrians which will be removed from the roadways. The design and construction of this program will also include amenities that will help create Extraordinary Places and Spaces. Desired Service Level If this item maintains or moves toward a desired service level, please explain how it does so.. This program moves the Town and its residents towards living a more Active Transportation lifestyle and provides Safe Transportation. Business Case If this item provides a financial return, please explain how it does so... This item does not provide a financial return at this time. Risk Mitigation If this item mitigates a significant risk, please explain how it does so.. This program will provide for the off-road transportation needs of cyclists, pedestrians, joggers, etc. which will provide an increased level of safety by eliminating risk of conflicts with vehicles. Section 2 Collaboration and Consultation Please identify relevant business areas for this item. An area is relevant if collaboration or consolation is required. Identify by checking all boxes that apply below.. **Customer Services** Building HR Engineering Legislative Services **Planning** Operations Legal **Finance Recreation & Culture** Procurement **Parks** Х Communications Х **Facilities** Other Please discuss item with relevant areas and include their comments below... Department Comments Procurement This program requires the prompt tendering, award and execution of Consultant, Contractor and 3rd party contracts, in accordance with the Town's Bylaw and Trade Agreements.

Operations

routes/practices, deficiency sign-off/testing)

Scope determination, design reviews, sign-offs, support during construction (e.g. attend meetings, operate valves, perform emergency repairs, road closures, alter existing operational
