Dear Mayor Van Bynen and Members of Council:

On behalf of the FCM-ICLEI Partners for Climate Protection (PCP) program, I wish to congratulate the Town of Newmarket for achieving Milestones 1-3. Achievement of these Milestones signals that your local government has created a greenhouse gas (GHG) emissions inventory, set reduction targets and developed a local action plan to reduce emissions in your community and municipal activities. The Town of Newmarket has shown bold leadership in addressing these important issues, and we are pleased to share your achievement on the PCP website at www.fcm.ca/pcp.

We look forward to working with you in the implementation of actions, monitoring of progress and reporting on results, which form the remaining Milestones in the PCP framework. Your efforts, along with those of a growing number of PCP participants, are making a significant contribution to reducing Canada's GHG emissions.

Cost-effective, community-based projects offer the very best opportunities for taking action on climate change. Since 2008, PCP member municipalities have voluntarily reported on over 800 projects to reduce GHG emissions. These projects represent more than \$2.3 billion in investments and over 1.8 million tonnes in annual GHG reductions.
