

We have a new online engagement tool!

The Town of Newmarket has launched a new digital engagement platform to help you get involved in Town projects and initiatives from the comfort of your own home. You can join the conversation and contribute ideas on a number of town-related topics at www.heynewmarket.ca.

Hey Newmarket provides you a quick and easy way to have your say on a wide range of projects that are affecting you and your community. Some of the ways you can participate are:

- playing with interactive maps,
- taking a poll,
- leaving questions,
- filling out surveys,
- sharing your ideas and commenting respectfully on others, and
- contributing to discussion forums.

The platform allows you to respond and engage, while also seeing how others feel about these topics. The site does not allow for anonymous comments and is moderated 24/7.

Your comments and ideas will be used by the project lead department to help shape strategies, plans, and activities. These analytics will often be used in combination with other community outreach activities and face-to-face consultation to help inform Council's decision making.

If you register to use Hey Newmarket before **July 31** you will be entered into a draw for a one month **free** fitness membership at the Town of Newmarket Fitness Centre (Magna Centre, 800 Mulock Drive).

Visit www.heynewmarket.ca today! And register to be entered into the draw and share your thoughts and ideas.
