Executive Summary

See below.

Purpose

The purpose of this report is to provide an update that the Building Permit fees will increase by an average of 2.5% in 2020.

Background

In 2016, By-law 2015-58 was enacted to establish the collection of Building Permit fees. This fee schedule has remained unchanged since then.

As per the Building Code Act, 1992, a municipality is required to prepare a report regarding building permit fees and the costs of administering and enforcing this Act every 12 months; and the municipality shall make its report available to the public.
The target increase is 2.5% - it represents the annual increase in the Toronto Consumer Price Index (CPI) at the beginning of the 2020 budget process in March, 2019.

**Discussion**

Based on the Servicing Pricing Policy, Building Code Act fees are categorized as a Private Good establishing a cost recovery target level of 100% to recover the full cost of providing the services by the municipality. The services are provided for the benefit of specific interested users.

For 2020, Building Permit fees are proposing a 2.5% average increase. New fees are added to reflect those building permit items that are not included in the current fee schedule. In addition, a few fee items are revised to ensure consistencies with other fee items.

Cost recovery targets will continue to be met with the current fees and charges.

**Conclusion**

This report will be posted on the Town’s website.
