Subject: Police club lands development
Date: October 13, 2020 12:00:00 AM

I, Daniel Chan, of Newmarket and my family of 4 oppose the destruction of the lands at the Police club on Stonehaven Ave.

I support, at least the repurposing of the building and lands for town use and conservation of the natural environment that exists there. I'm sure the building can be sold to someone for better use than demolition.

There has been a call for a larger library in town. That might work better than the small parking lot that feeds it now.

We have seen nature being forced out from the wooded areas by the developments along the St. John's and Mulock corridor. Rodents and pests are running around the streets now rummaging through garbage and backyards.

We love the trails that run through Neighbourhoods. it allows safe passage for kids and families within nature to learn and grow the community sustainably.

We OPPOSE full coverage development of the lands.
