

Town of Newmarket, thank you for your letter regarding proposed new development from the subject applicant. Following is our comments:

1. The area is designated as Oak Ridge Moraine land, how could such a huge residential development happen here? Environmental impact is disastrous;
2. Current provincial government is builder friendly, they reverse some land use policy and measures implemented by previous Liberal government. In last 30 years, too much green land has been paved for development. That has to stop. Ontario needs to grow vertically, not horizontally.

We are against this project. They are selling and building west of Yonge. That is it. No more.
Save Green Land.

Thank You.

Li Xiaofeng and Zhou Ping
