We herein acknowledge receipt of the Application for Minor Variance wherein the applicant is proposing to add an accessory dwelling unit. The following relief is requested from Zoning By-law 2010-40, as amended:

1. Relief from Section 5.3.1 Minimum Off-Street Parking Requirements to permit one parking space for an accessory dwelling unit within a garage, whereas the By-law requires parking spaces be provided exterior of any garage.

We have concerns with this application, as allowing this request may result in additional cars parking on the road. We have been advised that parking requirements are typically commented on by the Planning Department and Planning have been supporting requests of this nature. For the sake of consistency, it is our opinion that Engineering should defer comments to the Planning Department and not object to this request at this time.

Should you have any questions please contact the undersigned.

Sincerely,

ENGINEERING SERVICES
