

I understand a Vote is on the Table, regarding the legalization of the referenced Parlours, where sensuality and sex are often for sale!

First-hand, I have experienced the loss of a Brother to suicide because of pornography and massage/rub parlours, by which he destroyed promising relationships. Also, a nephew stooped to assault and rape after exposure to these environments. I myself faced-down the lure of a pimp, so I understand the insidious market of flesh!

As you would protect your own Daughter, Son and/or Grandchildren, please promote a YES-vote to the changes recommended!

Thank you.  
Ruth Dow
