

Petitioning Newmarket Council to Save Hollingsworth Arena

A developer wishes to purchase this arena, demolish it, and put two high-rise apartment buildings, townhomes and retail stores. If this goes ahead, the residents of **Ward 3** will **not** have access to a local recreation facility. Closure of this facility will result in decreased access to ice time, which is a growing concern in town. Hollingsworth arena is currently booked 85% of the time. The ward, as well as the town needs this facility. If the arena is lost, this area of town will be grossly under serviced for recreation. We understand the need for growth and development in Newmarket, but we ask that council explore other locations for this development to take place. Please sign and help save the arena and the land it is on!

Petitioning Newmarket Council to Save Hollingsworth Arena

A developer wishes to purchase this arena, demolish it, and put two high-rise apartment buildings, townhomes and retail stores. If this goes ahead, the residents of **Ward 3** will **not** have access to a local recreation facility. Closure of this facility will result in decreased access to ice time, which is a growing concern in town. Hollingsworth arena is currently booked 85% of the time. The ward, as well as the town needs this facility. If the arena is lost, this area of town will be grossly under serviced for recreation. We understand the need for growth and development in Newmarket, but we ask that council explore other locations for this development to take place. Please sign and help save the arena and the land it is on!
