

## Hospice Moments

We are honoured that thousands of York Region residents have already turned to our hospices during the most difficult times in their lives. We help individuals and families to navigate the frightening situation of facing a life-threatening illness and are there to support them along their journey, from treatment to recovery to grief and bereavement. Every family's journey is different and our team is committed to helping York Region families travel their path with supports available along the way.

To operate Margaret Bahen Hospice and Doane House Hospice annually it costs just over \$1.8M. We are fortunate to receive government funding of approximately \$1M to cover our direct care staff and some essential medical supplies, *however this leaves a gap of \$850,000 each year that must be raised through support from our community.*

Your support will help us to ensure that our programs and services continue to be available to residents in York Region at the same level of care that our families experience every day.

**Our hospices create special memories that we call "Hospice Moments" that can give our residents and their families memories that will last forever.**
