

16756 & 16764 Bayview Avenue

The proposed 6 story apartment building is a very bad idea. That part of the street is a narrow 2 lane street and is already a bottleneck for traffic - especially for EMS enroute to Southlake hospital and for fire trucks. I will bring this situation to their attention and you should also.

Also, that building will obstruct much of the sunshine for most of my block on Ainsworth Dr. and for those houses on Bayview for sure. I'm a senior that spends all the winter months here so my sunshine and Vitamin D are very important to my physical and psychological well-being. You must not deprive us of our sun.

We already have extra traffic from the new medical centre at Bayview and Mulock. We cannot tolerate even more for reasons that i mentioned above.

Please DO NOT approve this project. I and other neighbours are going to a lot of trouble disputing this. You should have realized that this is a very ill-advised plan. You can earn your extra property taxes elsewhere.
