In reply to the letter of notice dated August 11

I am against any parking around for the sole reason that when people double park and or park anywhere they like, How do the garbage trucks, recycle trucks, and especially how would emergency vehicles, and fire trucks get through?

We have had people park right on the island, park in the middle of the court, lock the car and go inside. How is this ok?

Put me down for a definite NO to any parking around the island.

Wilf Saunders
