Hi Umar,

Thanks for passing this along and discussing this further. As mentioned, this would be better served with the proponent dealing directly with Montgomery Industrial Services in relocating the street light. I see no issues with this in moving it +/- 10' or so. I've attached Alex McKenzie's vcard.

I would mention that the proponents site plan is incorrect in that the concrete sidewalk/existing curb cut is missing the asphalt portion before it abuts the concrete curb – you can see this on the attached image

Thank you,

Michael Sproule C.E.T.

Thank you Jason.

Michael, are you able to provide comment on 200 Vermont Street. Attaching the site plan and pictures our Planner took on a site visit. The Street lamp is directly behind the proposed driveway widening.

Thank you.

Regards,
Umar
