Subject: Seneca Crt Stop Sign

Hi Kelly,

Please find attached pictures from today, April 25th, at the intersection of Seneca Crt and Rushbrook. While pulling out from the street today you can see that my car is past the stop line and that you still can not see down the road past the truck parked at the end of the driveway. For me to see past the truck I would be more than an entire car length past the line. This intersection is not safe for drivers and pedestrians and needs an all way stop.

Alicia Reynolds
