

Message from the Chief

Firefighters have been protecting Aurora and Newmarket since the 1800's and while the uniforms, equipment and apparatus have changed, the level of dedication and determination to help the people of the community has not waivered. We strive to protect the people we serve and their property in the most operationally effective and cost efficient manner possible.

FIRE PREVENTION DIVISION

Today, Fire Protection Services are provided in alignment with the Office of the Fire Marshal's "Three Lines of Defence"

- Public Education & Fire Prevention
- Fire Safety Standards & Code Enforcement
- Emergency Response

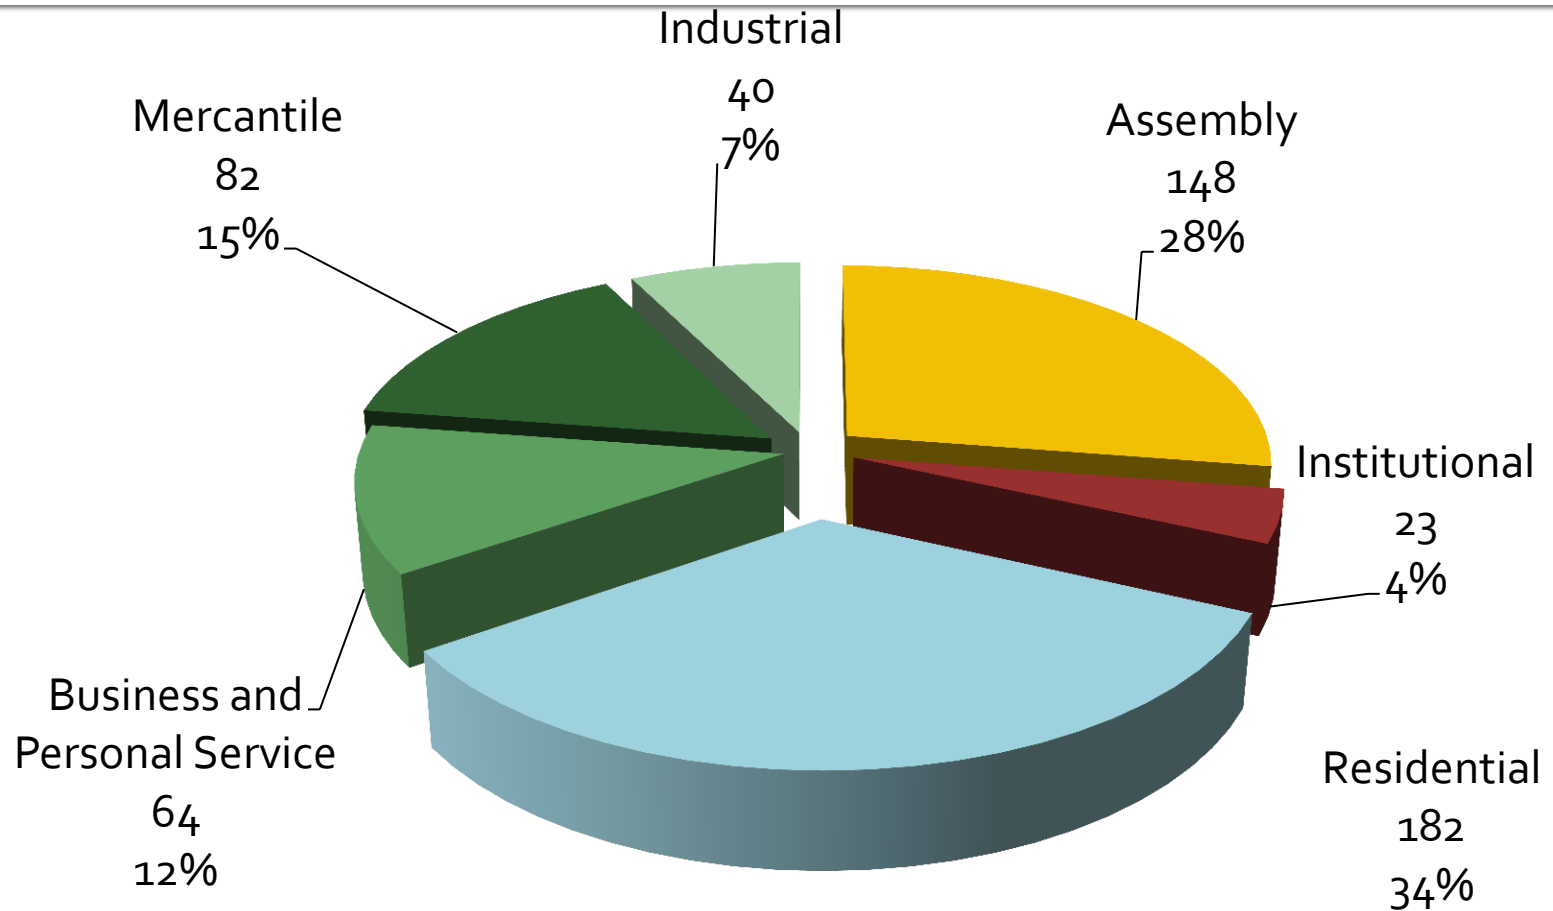

Vulnerable Occupancies

Nursing Homes and Retirement Homes

- 17 facilities in primary response area (including Southlake Hospital)
- Fire Prevention staff conduct annual inspections
- Evacuation drills part of the process
- Fire Code Changes – all care facilities will require sprinkler protection under new legislation
- 14 facilities currently have sprinkler protection

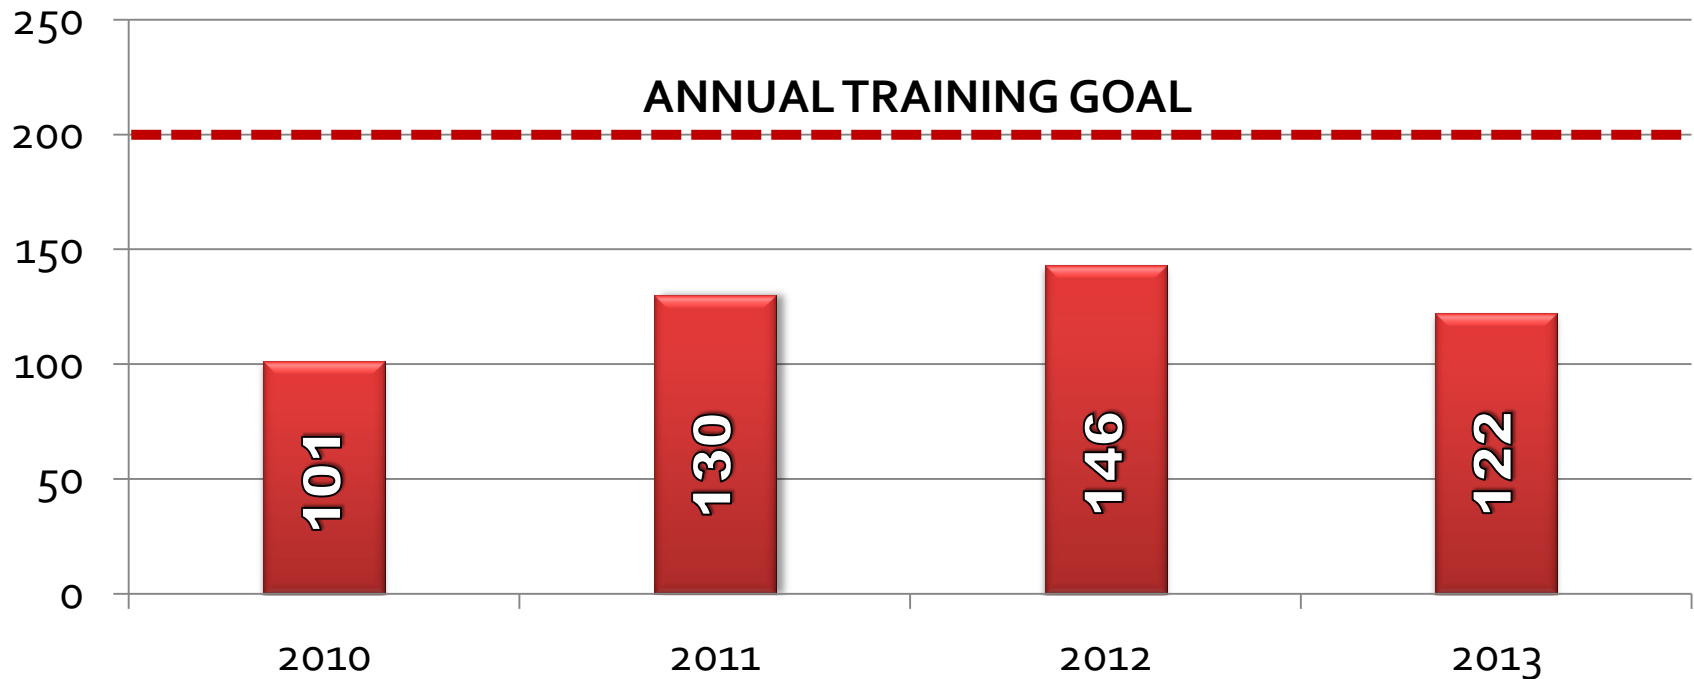

Fire Code Inspections
